

UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended **June 30, 2019**

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_.  
Commission File Number: **001-38280**

**CBTX, INC.**

(Exact name of registrant as specified in its charter)

**Texas**  
(State or other jurisdiction of  
incorporation or organization)

**20-8339782**  
(I.R.S. employer  
identification no.)

**9 Greenway Plaza, Suite 110**  
**Houston, Texas 77046**  
(Address of principal executive offices)

**(713) 210-7600**  
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common stock, par value \$0.01 per share	CBTX	The Nasdaq Global Select Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically, every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer   
Non-accelerated filer

Accelerated filer   
Smaller reporting company   
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of July 22, 2019, there were 26,015,288 shares of the registrant's common stock outstanding, including 235,153 shares of unvested restricted stock.

CBTX, INC.

**CBTX, INC. AND SUBSIDIARY**  
**Notes to Condensed Consolidated Financial Statements**  
**(Unaudited)**

**NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Nature of Operations

CBTX, Inc., or the Company, or CBTX, operates 35 branches, 19 in the Houston market area, 15 in the Beaumont/East Texas market area and one in Dallas, through its wholly-owned subsidiary, CommunityBank of Texas, N.A., or the Bank. The Bank provides relationship-driven commercial banking products and services primarily to small and mid-sized businesses and professionals with operations within the Bank's markets. The Bank operates under a national charter and therefore is subject to regulation by the Office of the Comptroller of the Currency, or OCC, and the Federal Deposit Insurance Corporation, or FDIC. The Company is subject to regulation by the Board of Governors of the Federal Reserve.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of the Company and the Bank. All material intercompany balances and transactions have been eliminated in consolidation.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States, or GAAP, but do not include all the information and footnotes required for complete consolidated financial statements. In management's opinion, these interim unaudited condensed consolidated financial statements include all adjustments of a normal recurring nature necessary for a fair statement of the Company's consolidated financial position at June 30, 2019 and December 31, 2018, consolidated results of operations and consolidated shareholders' equity for the three and six months ended June 30, 2019 and 2018 and consolidated cash flows for the six months ended June 30, 2019 and 2018.

Accounting measurements at interim dates inherently involve greater reliance on estimates than at year end and the results for the interim periods shown in this report are not necessarily indicative of results to be expected for the full year due in part to global economic and financial market conditions, interest rates, access to sources of liquidity, market competition and interruptions of business processes. These interim unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto for the year ended December 31, 2018 included within the Company's Annual Report on Form 10-K.

Reclassification— Within interest income, equity investment income for 2018 has been reclassified from federal funds and other interest-earning assets to a separate line and within interest expense, repurchase agreements and FHLB advance expense have been combined and notes payable and junior subordinated debt have also been combined. On the December 31, 2018 balance sheet, repossessed real estate and other assets were combined with other assets. These reclassifications were made to conform to the 2019 financial statement presentation in the consolidated statements of income and consolidated balance sheets.

Accounting Standards Recently Adopted

The Company adopted Accounting Standards Update, or ASU 2016-02, Leases (Topic 842) on January 1, 2019, using the effective date as the date of initial adoption. The Company elected to apply certain practical expedients for transition, and under those expedients the Company did not reassess prior accounting decisions regarding the identification, classification and initial direct costs for leases existing at the effective date. The Company also elected to use hindsight in determining lease term when considering options to extend the lease and excluded short-term leases (defined as lease terms of 12 months or less). The Company elected to separate non-lease components from lease components in its application of ASU 2016-02. At adoption, the Company recorded right-of-use assets totaling \$13.2 million, which represented the Company's right to use, or control the use of, a specified assets for their lease terms, and the Company recorded lease

## [Table of Contents](#)

liabilities totaling \$15.5 million, which represented the Company's liability to make lease payments under these leases. Accrued lease obligations and lease incentive liabilities totaling \$2.3 million that were in other liabilities at December 31, 2018 were reversed as part of the adoption during the first quarter of 2019. The ASU 2016-02 standard applied to all leases existing at the date of initial adoption. The Company's financial statements and related footnotes were not updated for ASU 2016-02 for dates and periods before the date of adoption. See Note 16.

### Accounting Standards Not Yet Adopted

ASU 2016-13, Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. ASU 2016-13 requires the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions and reasonable and supportable forecasts and requires enhanced disclosures related to the significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an organization's portfolio. In addition, ASU 2016-13 amends the accounting for credit losses on available for sale debt securities and purchased financial assets with credit deterioration. ASU 2016-13 will be effective on January 1, 2020.

The Company is in the process of evaluating the potential impact of ASU 2016-13 on the consolidated financial statements. We have developed a functional working group, with the assistance of an outside consultant, that is comprised of individuals from various areas including credit, risk management, and accounting, among others. We are currently working through our implementation plan related to the assessment and documentation of the methodology to be utilized, the processes and internal controls related to the estimation process, model development and validation, as well as system configuration. Existing technology is being adapted to conform to the requirements of ASU 2016-13 and we are in the process of implementing a third-party vendor solution to assist in the application of ASU 2016-13. The adoption of ASU 2016-13 will require changes to the Company's accounting policies and disclosures for credit losses on financial instruments. The adoption of ASU 2016-13 may result in an increase in the allowance for loan losses as a result of changing from an incurred loss estimate to an expected loss estimate. The Company is continuing to evaluate the impact of this pronouncement on the allowance for credit losses and related future provisions as we progress with our implementation plan.

### Cash Flow Reporting

Cash, cash equivalents and restricted cash include cash, interest-bearing and noninterest-bearing transaction accounts with other banks and federal funds sold. The Bank is required to maintain regulatory reserves with the Federal Reserve Bank and the reserve requirements for the Bank were \$19.7 million and \$18.5 million at June 30, 2019 and December 31, 2018, respectively. Additionally, as of June 30, 2019 and December 31, 2018, the Company had \$2.2 million and \$1.6 million, respectively, in cash collateral for interest rate swap transactions.

Supplemental disclosures of cash flow information are as follows for the periods indicated below:

(Dollars in thousands)	Six Months Ended June 30,	
	2019	2018
Supplemental disclosures of cash flow information:		
Cash paid for taxes	\$ 4,323	\$ 3,928
Cash paid for interest	7,789	4,249
Supplemental disclosures of non-cash flow information:		
Dividends accrued	1,292	33
Operating lease right-to-use asset obtained in exchange for lease liabilities	13,208	—
Repossessed real estate and other assets	77	137

**NOTE 2: SECURITIES**

[Table of Contents](#)

Actual maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

Securities with a carrying amount of \$358,000 were sold in the six months ended June 30, 2019. There were no securities sold in the six months ended June 30, 2018. At June 30, 2019 and December 31, 2018, securities with a carrying amount of approximately \$53.1 million and \$49.9 million, respectively, were pledged to secure public deposits, repurchase agreements and for other purposes required or permitted by law.

The Company held 74 securities at June 30, 2019 and 100 securities at December 31, 2018, respectively, that were in a gross unrealized loss position for 12 months or more as illustrated in the table below. The unrealized losses are attributable primarily to changes in market interest rates relative to those available when the securities were acquired. The fair value of these securities is expected to recover as the securities reach their maturity or re-pricing date, or if changes in market rates for such investments decline. Management does not believe that any of the securities the Company holds are impaired due to reasons of credit quality and believes the unrealized losses detailed in the tables below are temporary. No impairment loss has been recorded in the Company's condensed consolidated statements of income for the six months ended June 30, 2019 and 2018.

Securities with unrealized losses as of the dates shown below, aggregated by category and the length of time were as follows:

	Less Than Twelve Months		Twelve Months or More	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
<b>(Dollars in thousands)</b>

Other securities	—	—	1,088	(41)
	<u>\$ 51,491</u>	<u>\$ (773)</u>	<u>\$ 116,894</u>	<u>\$ (3,666)</u>

**NOTE 3: EQUITY INVESTMENTS**

The Company's unconsolidated investments that are considered equity securities as they represent ownership interests, such as common or preferred stock, were as follows for the dates indicated below.

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>	<b>December 31, 2018</b>
Federal Reserve stock	\$ 9,271	\$ 9,271
Federal Home Loan Bank stock	6,740	1,250
The Independent Bankers Financial Corporation stock	141	141
Community Reinvestment Act investments	2,770	2,364
	<u>\$ 18,922</u>	<u>\$ 13,026</u>

Banks that are members of the Federal Home Loan Bank System, or FHLB, are required to maintain a stock investment in the FHLB calculated as a percentage of aggregate outstanding mortgages, outstanding FHLB advances and other financial instruments. Banks that are members of the Federal Reserve System are required to annually subscribe to Federal Reserve Bank stock in specific ratios to the Bank's equity. Although FHLB and Federal Reserve Bank Stock are considered equity securities, they do not have readily determinable fair values because ownership is restricted, and they lack a market. These investments can be sold back only at their par value of \$100 per share and can only be sold to the Federal Home Loan Banks or Federal Reserve Banks or to another member institution. In addition, the equity ownership rights are more limited than would be the case for a public company, because of the oversight role exercised by regulators in the process of budgeting and approving dividends. As a result, these investments are carried at cost and evaluated for impairment.

The Company also holds an investment in the stock of The Independent Bankers Financial Corporation, or TIB. This investment has limited marketability. As a result, these investments are carried at cost and evaluated for impairment. The Company has investments in two private investment funds and a limited partnership. These investments are qualified Community Reinvestment Act, or CRA, investments under the Small Business Investment Company program of the Small Business Administration, or SBA. There are limited to no observable price changes in orderly transactions for identical investments or similar investments from the same issuers that are actively traded and as a result, these investments are stated at cost. At June 30, 2019 and December 31, 2018, the Company had \$2.6 million and \$3.0 million, respectively, in outstanding unfunded commitments to these funds, which are subject to call.

The Company's equity investments are evaluated for impairment based on an assessment of qualitative indicators. Impairment indicators to be considered include, but are not limited to (i) a significant deterioration in the earnings, performance, credit rating, asset quality or business prospects of the investee, (ii) a significant adverse change in the regulatory, economic or technological environment of the investee, (iii) a significant adverse change in the general market conditions of either the geographical area or the industry in which the investee operates, (iv) a bona fide offer to purchase, an offer by the investee to sell, or completed auction process for the same or similar investment for an amount less than the carrying amount of that investment. There were no such qualitative indicators as of June 30, 2019.

**NOTE 4: LOANS**

Loans by loan class as of the dates shown below were as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>		<b>December 31, 2018</b>	
Commercial and industrial	\$ 540,084	20.4%	\$ 519,779	21.2%
Real estate:				
Commercial real estate	854,513	32.2%	795,733	32.4%

1-4 family residential	281,525	10.6%	282,011	11.5%
Multi-family residential	298,887	11.3%	221,194	9.0%
Consumer	39,803	1.5%	39,421	1.6%
Agriculture	9,923	0.4%	11,076	0.5%
Other	65,471	2.5%	68,382	2.8%
Total gross loans	<u>2,649,878</u>	<u>100.0%</u>	<u>2,453,129</u>	<u>100.0%</u>
Less deferred loan fees and unearned discounts	(6,181)		(6,306)	
Less allowance for loan loss	(25,342)		(23,693)	
Less loans held for sale	(1,408)		—	
Loans, net	<u>\$ 2,616,947</u>		<u>\$ 2,423,130</u>	

Accrued interest receivable for loans is \$7.8 million and \$6.8 million at June 30, 2019 and December 31, 2018, respectively, and is included in other assets in the condensed consolidated balance sheets.

[Table of Contents](#)

From time to time, the Company will acquire and dispose of interests in loans under participation agreements with other financial institutions. Loan participations purchased and sold during the six months ending June 30, 2019 and 2018, by loan class, were as follows:

<b>(Dollars in thousands)</b>	<b>Participations Purchased During the Period</b>	<b>Participations Sold During the Period</b>
<b>June 30, 2019</b>		
Commercial real estate	\$ 1,256	\$ 30,330
<b>June 30, 2018</b>		
Commercial and industrial	\$ 7,000	\$ —
Commercial real estate	13,446	35,000
	<u>\$ 20,446</u>	<u>\$ 35,000</u>

The Company participates in the SBA loan program. When advantageous, the Company will sell the guaranteed portions of these loans with servicing retained. SBA loans that were sold with servicing retained during the six months ended June 30, 2019 and 2018 totaled \$1.7 million and \$1.5 million respectively.

**NOTE 5: LOAN PERFORMANCE**

Nonaccrual loans, segregated by loan class, as of the dates shown below were as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>	<b>December 31, 2018</b>
Commercial and industrial	\$ 1,795	\$ 1,317
Real estate:		
Commercial real estate	850	1,517
1-4 family residential	624	656
Total	<u>\$ 3,269</u>	<u>\$ 3,490</u>

[Table of Contents](#)

Interest income that would have been earned under the original terms of the nonaccrual loans was \$87,000 and \$139,000 for the six months ended June 30, 2019 and 2018, respectively.

The following is an aging analysis of the Company's past due loans, segregated by loan class, as of the dates shown below:

(Dollars in thousands)	30 to 59 days past due	60 to 89 days past due	90 days or greater past due	Total past due	Total current loans	Total loans	90 days past due and still accruing

Total loans	\$ 1,028	\$ 6,285	\$ 795	\$ 8,108	\$ 2,445,021	\$ 2,453,129	\$ —

Loans restructured due to the borrower's financial difficulties during the six months ended June 30, 2019 and 2018, which remained outstanding at the end of that period were as follows:

(Dollars in thousands)	Number of Loans	Pre-modification Outstanding Recorded Investment	Post-modification recorded investment			
			Restructured Payments	Extended Maturity	Extended Maturity and Restructured Payments	Restructured Payments and Adjusted Interest Rate
<b>June 30, 2019</b>						
Commercial and industrial	1	\$ 163	\$ —	\$ —	\$ —	\$ 163
1-4 family residential	1	115	—	—	—	115
Total	2	\$ 278	\$ —	\$ —	\$ —	\$ 278
<b>June 30, 2018</b>						
Commercial and industrial	4	\$ 986	\$ 936	\$ —	\$ 50	\$ —
Commercial real estate	4	2,399	2,399	—	—	—
Total	8	\$ 3,385	\$ 3,335	\$ —	\$ 50	\$ —

The recorded investment in troubled debt restructurings was \$8.5 million and \$11.4 million as of June 30, 2019 and December 31, 2018, respectively. As of June 30, 2019 and December 31, 2018, \$1.9 million and \$1.8 million of restructured loans were nonaccrual loans and \$6.6 million and \$9.6 million of restructured loans were accruing interest as of those periods. At June 30, 2019 and December 31, 2018, the Company had an outstanding commitment to potentially fund \$4.2 million and \$2.1 million, respectively, on a line of credit restructured prior to 2018.

[Table of Contents](#)

There were no loans modified as a troubled debt restructured loan within the previous 12 months and for which there was a payment default. For purposes of this disclosure, a default is a loan modified as a troubled debt restructuring where the borrower is 90 days past due or results in the foreclosure and repossession of the applicable collateral.

**NOTE 6: ALLOWANCE FOR LOAN LOSSES**

Activity in the allowance for loan losses segregated by loan class for the periods indicated in the tables below was as follows:

(Dollars in thousands)	Commercial and industrial	Real Estate				Consumer	Agriculture	Other	Total
		Commercial real estate	Construction and development	1-4 family residential	Multi-family residential				
<b>June 30, 2019</b>

1-4 family residential	2,236	8.8 %	2,281	9.6 %
Multi-family residential	2,178	8.6 %	1,511	6.4 %
Consumer	458	1.8 %	387	1.6 %
Agricultural	73	0.2 %	62	0.3 %
Other	655	2.6 %	705	3.0 %
Total allowance for loan losses	\$ 25,342	100.0 %	\$ 23,693	100.0 %

## [Table of Contents](#)

Allocation of a portion of the allowance to one category of loans above does not preclude its availability to absorb losses in other categories. In addition to the amounts indicated in the tables above, the Company has a reserve for loan losses on unfunded commitments of \$378,000 recorded in other liabilities as of June 30, 2019 and December 31, 2018.

### *Risk Grading*

As part of the on-going monitoring of the credit quality of the Company's loan portfolio and methodology for calculating the allowance for loan losses, management assigns and tracks loan grades as described below that are used as credit quality indicators.

**Pass**—Credits in this category contain an acceptable amount of risk.

**Special Mention**—Credits in this category contain more than the normal amount of risk and are referred to as “*special mention*” in accordance with regulatory guidelines. These credits possess clearly identifiable temporary weaknesses or trends that, if not corrected or revised, may result in a condition that exposes the Company to higher level of risk of loss.

**Substandard**—Credits in this category are “*substandard*” in accordance with regulatory guidelines and of unsatisfactory credit quality with well-defined weaknesses or weaknesses that jeopardize the liquidation of the debt. Credits in this category are inadequately protected by the current sound worth and paying capacity of the obligor or the collateral pledged, if any. Often, the assets in this category will have a valuation allowance representative of management's estimated loss that is probable to be incurred. Loans deemed substandard and on nonaccrual status are considered impaired and are individually evaluated for impairment.

**Doubtful**—Credits in this category are considered “*doubtful*” in accordance with regulatory guidelines, are placed on nonaccrual status and may be dependent upon collateral having a value that is difficult to determine or upon some near-term event which lacks certainty. Generally, these credits will have a valuation allowance based upon management's best estimate of the losses probable to occur in the liquidation of the debt.

**Loss**—Credits in this category are considered “*loss*” in accordance with regulatory guidelines and are considered uncollectible and of such little value as to question their continued existence as assets on the Company's financial statements. Such credits are to be charged off or charged down when payment is acknowledged to be uncertain or when the timing or value of payments cannot be determined. This category does not intend to imply that the debt or some portion of it will never be paid, nor does it in any way imply that the debt will be forgiven.

The Company had no loans graded “loss” or “doubtful” at June 30, 2019 and December 31, 2018.

Loans by risk grades and loan class as of the dates shown below were as follows:

<b>(Dollars in thousands)</b>	<b>Pass</b>	<b>Special Mention</b>	<b>Substandard</b>	<b>Total Loans</b>

At June 30, 2019 and December 31, 2018, the allowance allocated to specific reserves for loans individually evaluated for impairment was \$796,000 and \$758,000 respectively.

**NOTE 7: PREMISES AND EQUIPMENT**

Premises and equipment are summarized as follows as of the dates shown below:

(Dollars in thousands)	June 30, 2019	December 31, 2018
Land	\$ 13,466	\$ 13,466
Buildings and leasehold improvements	52,814	52,188
Furniture and equipment	15,637	15,426
Vehicles	236	232
Construction in progress	581	177
	82,734	81,489
Less accumulated depreciation	(31,388)	(29,867)
Premises and equipment, net	\$ 51,346	\$ 51,622

Depreciation expense was \$1.6 million and \$1.7 million for the six months ended June 30, 2019 and 2018, respectively, which is included in net occupancy expense on the Company's condensed consolidated statements of income. A net loss of \$32,000 for dispositions of premises and equipment for the six months ended June 30, 2019 was recognized and included in net gain on sale of assets in the condensed consolidated statements of income. There were no dispositions of premises and equipment in the six months ended June 30, 2018.

**NOTE 8: GOODWILL AND OTHER INTANGIBLE ASSETS**

Goodwill was \$81.0 million at June 30, 2019 and December 31, 2018 and there have been no changes in goodwill during the six months ended June 30, 2019 or the year ended December 31, 2018. Based on the results of the Company's assessment, management does not believe any impairment of goodwill or other intangible assets existed at June 30, 2019 or December 31, 2018.

Other intangibles, net of accumulated amortization, were as follows as of the dates shown below:

<u>(Dollars in thousands)</u>	<u>Weighted Amortization Period</u>	<u>Gross Intangible Assets</u>	<u>Accumulated Amortization</u>	<u>Net Intangible Assets</u>
<b>June 30, 2019</b>

Total other intangible assets, net		<u>\$ 20,690</u>	<u>\$ (14,915)</u>	<u>\$ 5,775</u>

*Servicing Assets*

Changes in the related servicing assets as of the dates indicated below were as follows:

<u>(Dollars in thousands)</u>	<u>Six Months Ended June 30,</u>	
	<u>2019</u>	<u>2018</u>
Balance at beginning of year	\$ 166	\$ 209
Increase from loan sales	30	33
Decrease from serviced loans paid off or foreclosed	(30)	(23)
Amortization	(16)	(16)
Balance at end of period	<u>\$ 150</u>	<u>\$ 203</u>

**NOTE 9: BANK OWNED LIFE INSURANCE**

The Company has purchased life insurance policies on covered individuals, which are recorded at their cash surrender value. Changes in the cash surrender value of the policies are recorded in noninterest income. Gains or losses and proceeds from maturities are recognized in noninterest income upon the death of a covered employee, on receipt of a death notice or other verified evidence. During the six months ended June 30, 2019, the Company received proceeds in the amount of \$4.7 million as the owner and beneficiary under a bank-owned life insurance policy as the result of the death of a former employee, and the Company recorded a gain of \$3.3 million.

Bank-owned life insurance policies and the net change in cash surrender value during the periods shown below were as follows:

<u>(Dollars in thousands)</u>	<u>June 30, 2019</u>	<u>December 31, 2018</u>
Balance at beginning of period	\$ 71,525	\$ 68,010
Purchases	—	1,700
Redemptions	(4,655)	—
Net change in cash surrender value	4,151	1,815
Balance at end of period	<u>\$ 71,021</u>	<u>\$ 71,525</u>

**NOTE 10: DEPOSITS**

Deposits as of the dates shown below were as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>	<b>December 31, 2018</b>
Interest-bearing demand accounts	\$ 351,326	\$ 387,457
Money market accounts	717,883	737,770
Saving accounts	91,828	96,962
Certificates and other time deposits, \$100,000 or greater	189,741	189,007
Certificates and other time deposits, less than \$100,000	186,842	172,028
Total interest-bearing deposits	<u>1,537,620</u>	<u>1,583,224</u>
Noninterest-bearing deposits	<u>1,201,287</u>	<u>1,183,058</u>
Total deposits	<u>\$ 2,738,907</u>	<u>\$ 2,766,282</u>

At June 30, 2019 and December 31, 2018, the Company had \$53.3 million and \$51.5 million in deposits from public entities and brokered deposits of \$122.4 million and \$104.5 million, respectively. The Company had no major concentrations of deposits at June 30, 2019 or December 31, 2018 from any single or related groups of depositors.

**NOTE 11: LINES OF CREDIT*****Frost Line of Credit***

The Company has entered into a loan agreement, or the Loan Agreement, with Frost Bank, which provides for a \$30.0 million revolving line of credit, or Line of Credit. The Loan Agreement was amended and restated on December 13, 2018 and, as amended, is referred to as the Amended Agreement. The Company can make draws on the Line of Credit for a period of 12 months which began on December 13, 2018, after which the Company will not be permitted to make further draws and the outstanding balance will amortize over a period of 60 months. Interest accrues on outstanding borrowings at a rate equal to the maximum "Latest" U.S. prime rate of interest per annum and payable quarterly in the first 12 months and thereafter quarterly principal and interest payments are required over a term of 60 months. The entire outstanding balance and unpaid interest is payable in full on December 13, 2024.

The Company may prepay the principal amount of any loan under the Amended Agreement without premium or penalty. The obligations of the Company under the Amended Agreement are secured by a valid and perfected first priority lien on all of the issued and outstanding shares of capital stock of the Bank.

Covenants made under the Amended Agreement include, among other things, the Company maintaining tangible net worth of not less than \$300 million, the Company maintaining free cash flow coverage ratio of not less than 1.25 to 1.00, the Bank's Texas Ratio (as defined under the Amended Agreement) not to exceed 15%, the Bank's Total Capital Ratio (as defined under the Amended Loan Agreement) of not less than 12% and restrictions on the ability of the Company and its subsidiaries to incur certain additional debt. The Company was in compliance with these covenants at June 30, 2019.

As of June 30, 2019, there were no outstanding borrowings on the Line of Credit and the Company has not drawn on this line since the Company entered into the Amended Agreement.

***Additional Lines of Credit***

The FHLB allows the Company to borrow on a blanket floating lien status collateralized by certain loans. As of June 30, 2019 and December 31, 2018, total borrowing capacity of \$875.7 million and \$919.9 million, respectively, was available under this arrangement. During the first and second quarter of 2019 and the second and third quarter of 2018, the Company borrowed under this agreement on a short-term basis. As of June 30, 2019, \$90.0 million of FHLB advances were outstanding and they matured in less than thirty days from June 30, 2019. At December 31, 2018, there were no outstanding FHLB advances. The average outstanding balance for FHLB advances for the six months ended June 30, 2019

[Table of Contents](#)

and 2018 was \$46.6 million and \$1.1 million, respectively. The weighted-average rate for the six months ended June 30, 2019 and 2018 was 2.54% and 2.19%, respectively.

As of June 30, 2019 and December 31, 2018, the Company maintained four federal funds lines of credit with commercial banks that provide for the availability to borrow up to an aggregate of \$75.0 million, in federal funds. There were no funds under these lines of credit outstanding as of June 30, 2019 or December 31, 2018.

**NOTE 12: JUNIOR SUBORDINATED DEBT**

Prior to being acquired in 2007 by the Company, County Bancshares, Inc. received proceeds of junior subordinated debt held by a trust funded by common securities, all of which were purchased by County Bancshares, Inc. and trust preferred securities in the amount of \$5.5 million that were held by other investors. Funds raised by the trust totaling \$5.7 million were loaned to County Bancshares, Inc. in the form of junior subordinated debt. This debt was transferred to the Company at the date of acquisition. In 2015, the Company purchased \$4.1 million of the outstanding preferred securities, reducing the outstanding preferred securities to \$1.6 million.

In November 2018, the County Bancshares Trust I, or County Trust, agreed to redeem all of the County Trust's issued and outstanding trust preferred securities upon concurrent redemption made by the Company of its junior subordinated debt securities held by the County Trust on January 7, 2019. The Company paid \$5.7 million to pay its obligation for the junior subordinated debt, including accrued and unpaid interest. The Company received \$4.1 million from the redemption of the preferred securities.

**NOTE 13: RELATED PARTY TRANSACTIONS**

In the ordinary course of business, the Company, through the Bank, has and expects to continue to conduct routine banking business with related parties, including its executive officers and directors. Related parties also include shareholders and their affiliates in which they directly or indirectly have 5% or more beneficial ownership in the Company.

Loans—In the opinion of management, loans to related parties were on substantially the same terms, including interest rates and collateral, as those prevailing at the time of comparable transactions with other persons and did not involve more than a normal risk of collectability or present any other unfavorable features to the Company. The Company had approximately \$172.2 million and \$169.0 million in loans to related parties at June 30, 2019 and December 31, 2018, respectively. As of June 30, 2019 and December 31, 2018, there were no loans made to related parties deemed nonaccrual, past due, restructured or classified as potential problem loans.

Unfunded Commitments—At June 30, 2019 and December 31, 2018, the Company had approximately \$53.9 million and \$55.7 million in unfunded loan commitments to related parties, respectively.

Deposits—The Company held related party deposits of approximately \$229.8 million and \$311.2 million at June 30, 2019 and December 31, 2018, respectively.

**NOTE 14: FAIR VALUE DISCLOSURES**

The Company uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction occurring in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. In estimating fair value, the Company uses valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. Such valuation techniques are consistently applied. Inputs to valuation techniques refer to the assumptions used in pricing the asset or liability. Valuation inputs are categorized in a three-level hierarchy, that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs—Unadjusted quoted prices in active markets for identical assets and liabilities that the reporting entity has the ability to access at the measurement date.

## [Table of Contents](#)

**Level 2 Inputs**—Other observable inputs that may include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active or other inputs that are observable for the asset or liability such as interest rates, volatilities, prepayment speeds, loss severities, credit risks and default rates or inputs that are observable or can be corroborated by observable market data.

**Level 3 Inputs**—Unobservable inputs that reflect an entity's own assumptions that market participants would use in pricing the assets or liabilities.

During the six months ended June 30, 2019 and the year ended December 31, 2018, there were no transfers of assets or liabilities within the levels of the fair value hierarchy.

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon models that primarily use observable market-based parameters as inputs. Valuation adjustments may be made to ensure that assets and liabilities are recorded at fair value. These adjustments may include amounts to reflect counterparty credit quality and creditworthiness, among other things, as well as unobservable parameters. Any such valuation adjustments are applied consistently over time.

The Company's valuation methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While management believes the Company's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in different estimate of fair value. Fair value estimates are based on judgements regarding current economic conditions, risk characteristics of the various instruments and other factors. These estimates are subjective in nature and involve uncertainties and matters of significant judgement and therefore cannot be determined with precision.

### *Financial Instruments Measured at Fair Value on a Recurring Basis*

The Company's assets and liabilities measured at fair value on a recurring basis include the following:

**Securities Available for Sale:** Securities classified as available for sale are recorded at fair value. For those securities classified as Level 2, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U.S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayments speeds, credit information and the security's terms and conditions, among other things. The Company reviews the prices supplied by the independent pricing service, as well as their underlying pricing methodologies for reasonableness. The other securities in the table below are mutual funds and the fair value is determined by using unadjusted quoted market prices which are considered Level 1 inputs.

**Interest Rate Swaps:** The Company obtains fair value measurements for its interest rate swaps from an independent pricing service which uses the income approach. The income approach calls for the utilization of valuation techniques to convert future cash flows as due to be exchanged per the terms of the financial instrument, into a single present value amount. Measurement is based on the value indicated by the market expectations about those future amounts

[Table of Contents](#)

as of the measurement date. The proprietary curves of the independent pricing service utilize pricing models derived from industry standard analytic tools, considering both Level 1 and Level 2 inputs.

Financial assets and financial liabilities measured at fair value on a recurring basis as of the dates shown below were as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>	<b>December 31, 2018</b>
<b>Fair value of financial assets:</b>		
Level 1 inputs: securities available for sale - other securities	\$ 1,130	\$ 1,088
Level 2 inputs:		
Securities available for sale		
State and municipal securities	56,167	57,691
U.S. Agency Securities:		
Debt securities	17,276	16,881
Collateralized mortgage obligations	63,536	65,414
Mortgage-backed securities	94,462	88,859
Interest rate swaps	2,568	962
<b>Total fair value of financial assets</b>	<b>\$ 235,139</b>	<b>\$ 230,895</b>
<b>Fair value of financial liabilities:</b>		
Level 2 inputs: interest rate swaps	\$ 2,568	\$ 962
<b>Total fair value of financial liabilities</b>	<b>\$ 2,568</b>	<b>\$ 962</b>

*Financial Instruments Measured at Fair Value on a Non-recurring Basis*

A portion of financial instruments are measured at fair value on a non-recurring basis and are subject to fair value adjustments in certain circumstances. The Company's financial assets measured at fair value on a non-recurring basis are certain impaired loans and as of the dates shown below were as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>			<b>December 31, 2018</b>		
	<b>Recorded Investment with Allowance</b>	<b>Related Allowance</b>	<b>Net</b>	<b>Recorded Investment with Allowance</b>	<b>Related Allowance</b>	<b>Net</b>
Level 3 inputs						
Impaired loans:						
Commercial and industrial	\$ 882	\$ 630	\$ 252	\$ 635	\$ 525	\$ 110

<b>Total impaired loans</b>	<b>\$ 4,735</b>	<b>\$ 796</b>	<b>\$ 3,939</b>	<b>\$ 4,296</b>	<b>\$ 758</b>	<b>\$ 3,538</b>

*Non-Financial Assets and Non-Financial Liabilities Measured on a Non-recurring Basis*

The fair value portion of non-financial assets or non-financial liabilities is measured on a non-recurring basis in certain circumstances, such as when there is evidence of impairment and may be subject to impairment adjustments. The Company's non-financial assets whose fair value may be measured on a non-recurring basis include repossessed real estate, other foreclosed assets, goodwill and intangible assets, among other assets. There were no write-downs of foreclosed assets for fair value remeasurement subsequent to initial foreclosure during the six months ended June 30, 2019

[Table of Contents](#)

and during 2018. The fair value of repossessed real estate and other foreclosed assets is estimated using Level 2 inputs and, as of the dates shown below, were as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>	<b>December 31, 2018</b>
<b>Foreclosed assets remeasured at initial recognition:</b>		
Carrying value of foreclosed assets prior to measurement	\$ 36	\$ 13
Charge-offs recognized in the allowance for loan losses	—	(1)
Fair value	<u>\$ 36</u>	<u>\$ 12</u>

*Financial Instruments Reported at Amortized Cost*

Fair market values and carrying amounts of financial instruments that are reported at cost as of the dates shown below were as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>		<b>December 31, 2018</b>	
	<b>Fair Value</b>	<b>Carrying Amount</b>	<b>Fair Value</b>	<b>Carrying Amount</b>

Accrued interest payable	864	864	653	653
<b>Total financial liabilities</b>	<u>\$ 2,806,331</u>	<u>\$ 2,830,576</u>	<u>\$ 2,710,146</u>	<u>\$ 2,771,004</u>

The estimated fair value amounts of financial instruments have been determined by the Company using available market information and appropriate valuation methodologies. However, considerable judgment is required to interpret data to develop the estimates of fair value and as such the fair values shown above are not necessarily indicative of the amounts the Company will realize. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

**NOTE 15: DERIVATIVE FINANCIAL INSTRUMENTS**

The Company has outstanding interest rate swap contracts in which the Bank entered into an interest rate swap with a customer and entered into an offsetting interest rate swap with another financial institution at the same time. These interest rate swap contracts are not designated as hedging instruments for mitigating interest rate risk of the Bank. The objective of the transactions is to allow the Bank's customers to effectively convert a variable rate loan to a fixed rate.

In connection with each swap transaction, the Bank agrees to pay interest to the customer on a notional amount at a variable interest rate and receive interest from the customer on a similar notional amount at a fixed interest rate. At the same time, the Bank agrees to pay a third-party financial institution the same fixed interest rate on the same notional amount and receive the same variable interest rate on the same notional amount. Because the Bank acts as an intermediary for its customer, changes in the fair value of the underlying derivative contracts are designed to offset each other and would not significantly impact the Company's operating results except in certain situations where there is a significant deterioration in the customer's credit worthiness or that of the counterparties. At June 30, 2019 and December 31, 2018, no such deterioration was determined by management.

At June 30, 2019 and December 31, 2018, the Company had 19 and 13 interest rate swap agreements outstanding with borrowers and financial institutions, respectively. These derivative instruments are not designated as accounting hedges and changes in the net fair value are recognized in noninterest income or expense. Fair value amounts are included in other assets and other liabilities. Interest rates on the Company's swap agreements are based on the London Interbank Offered Rate of the U.S. Dollar deposits in Europe, or LIBOR. Derivative instruments outstanding as of the dates shown below were as follows:

<u>(Dollars in thousands)</u>	<u>Classification</u>	<u>Notional Amounts</u>	<u>Fair Value</u>	<u>Fixed Rate</u>	<u>Floating Rate</u>	<u>Weighted Average Maturity (Years)</u>
<b><i>June 30, 2019</i></b>

**NOTE 16: OPERATING LEASES**

The Company adopted Accounting Standards Update, or ASU 2016-02, Leases (Topic 842) on January 1, 2019 and the Company's leases within scope were operating leases of office space, stand-alone buildings and land. The Company's leases have no variable costs. Right-of-use assets represent the Company's right to use, or control the use of, leased assets for their lease term and at June 30, 2019, totaled \$12.4 million. Lease liabilities represent the Company's liability to make lease payments under these leases, on a discounted basis and at June 30, 2019, totaled \$14.8 million. The weighted-average discount rate for the six months ended June 30, 2019 was 3.58%. The weighted-average remaining lease term for operating leases outstanding at June 30, 2019 was 11.7 years. Cash paid for amounts included in the measurement of operating lease liabilities for the six months ended June 30, 2019 was \$907,000.

Lease costs for the period shown below were as follows:

<b>(Dollars in thousands)</b>	<b>For the Six Months Ended June 30, 2019</b>
Operating lease cost	\$ 921
Short-term lease cost	42
Sublease income	(92)
Total lease cost	<u>\$ 871</u>

A maturity analysis of operating lease liabilities as of the date shown below was as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>
2019	\$ 1,988
2020	2,081
2021	2,186
2022	2,214
2023	1,974
Thereafter	9,941
Total undiscounted lease liability	20,384
Less: Discount on cash flows	(5,578)
Total operating lease liability	<u>\$ 14,806</u>

**NOTE 17: COMMITMENTS AND CONTINGENCIES AND FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK**

*Financial Instruments with Off-Balance-Sheet Risk*

In the normal course of business, the Company enters into various transactions, which in accordance with GAAP are not included in its consolidated balance sheets. The Company enters into these transactions to meet the financing needs of its customers. These financial instruments include commitments to extend credit for loans in process and standby letters of credit. The Company uses the same credit policies in making these commitments and conditional obligations as it does for on-balance-sheet instruments.

Commitments to extend credit and standby letters of credit as of the dates shown below were as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>	<b>December 31, 2018</b>
Commitments to extend credit, variable interest rate	\$ 678,314	\$ 726,277
Commitments to extend credit, fixed interest rate	128,884	105,359
	<u>\$ 807,198</u>	<u>\$ 831,636</u>
Standby letters of credit	\$ 28,057	\$ 31,729

[Table of Contents](#)

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being fully drawn upon, the total commitment amounts disclosed above do not necessarily represent future cash requirements.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to the Company's customers.

*Litigation*

The Company is subject to claims and lawsuits which arise primarily in the ordinary course of business. Based on information presently available and advice received from legal counsel representing the Company, it is the opinion of management that the disposition or ultimate determination of such claims and lawsuits will not have a material adverse effect on the financial position or results of operations of the Company.

**NOTE 18: REVENUE RECOGNITION**

ASU 606 requires entities to recognize revenue in a way that depicts the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A majority of the Company's revenue is derived from interest income on financial assets, which is not within the scope of ASC 606. Income from changes in the cash surrender value of bank-owned life is also not within the scope of ASC 606.

The Company's revenue-generating activities that are within the scope of ASC 606 are included in noninterest income in the condensed consolidated income statements. The Company generally fully satisfies its performance obligations on its contracts with customers as services are rendered and the transaction prices are typically fixed and charged at a point in time based on activity.

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Deposit account service charges	\$ 1,657	\$ 1,497	\$ 3,286	\$ 2,975
Net gain on sale of assets	69	210	157	340
Card interchange fees	941	971	1,805	1,898
Other noninterest income	915	363	1,397	738

**NOTE 19: EMPLOYEE BENEFIT PLANS AND DEFERRED COMPENSATION ARRANGEMENTS**

*Employee Benefit Plans*

The Company maintains a 401(k) employee benefit plan and substantially all employees that complete three months of service may participate. The Company, at its discretion, may match a portion of each employee's contribution and may make additional contributions. For the six months ended June 30, 2019 and 2018, the Company contributed \$1.1 million and \$1.1 million to the plan, respectively.

*Executive Deferred Compensation Arrangements*

The Company established an executive incentive compensation arrangement with several officers of the Bank, in which these officers are eligible for performance-based incentive bonus compensation. As part of this compensation arrangement, the Company contributes one-fourth of the incentive bonus amount into a deferred compensation account. The deferred amounts accrue at a market rate of interest and are payable to the employees upon separation from the Bank provided vesting arrangements have been met. At June 30, 2019 and December 31, 2018, the amount payable, including interest, for this deferred plan was approximately \$2.6 million and \$2.5 million, respectively, which is included in other liabilities in the condensed consolidated balance sheets.

*Salary Continuation Agreements*

The Company entered into a salary continuation arrangement in 2008 with the Company's then President and CEO that calls for payments of \$100,000 per year for a period of 10 years commencing at age 65. Payments under the plan began during 2014. The Company's liability was \$378,000 and \$421,000 at June 30, 2019 and December 31, 2018, respectively, which is included in other liabilities in the condensed consolidated balance sheets and equals the present value of the benefits expected to be provided.

In October 2017, the Company entered into a salary continuation arrangement with the Company's President and CEO that calls for payments of \$200,000 per year payable for a period of 10 years commencing at age 70. Payments under the plan will begin in 2024. The Company's liability was \$328,000 and \$219,000 at June 30, 2019 and December 31, 2018, respectively, which is included in other liabilities in the condensed consolidated balance sheets. The liability will continue to accrue over the remaining period until payments commence such that the accrued amount at the eligibility date will equal the present value of all the future benefits expected to be paid.

*Change of Control Agreements*

In 2017, the Company entered into employment agreements with certain executive officers. These agreements provide for severance benefits if the Company terminates the executive without cause or the executive resigns with good reason, as defined in the agreements. In addition, upon a change of control, as that term is defined in the agreements, these employees will be entitled to an aggregate amount estimated to be \$4.4 million at June 30, 2019 and December 31, 2018, in accordance to the terms of their respective agreements. No compensation has been recorded to date as a change of control condition is not deemed probable.

**NOTE 20: STOCK-BASED COMPENSATION**

The Company acquired a stock option plan which originated under VB Texas, Inc. as a part of a merger of the two companies. The options granted to employees must be exercised within 10 years from the date of grant and vesting schedules are determined on an individual basis. At the merger date, all outstanding options became fully vested and were converted to options of the Company's common stock at an exchange ratio equal to the acquisition exchange rate for common shares. No options were granted under this plan after October 24, 2016.

In May 2014, the Company adopted the 2014 Stock Option Plan, or the 2014 Plan. The 2014 Plan was approved by the Company's shareholders and limits the number of shares that may be optioned to 1,127,200. The 2014 Plan provides that no options may be granted after May 20, 2024. Options granted under the 2014 Plan expire 10 years from the date of grant and become exercisable in installments over a period of one to five years, beginning on the first anniversary of the date of grant. At June 30, 2019, 961,200 shares were available for future grant under the 2014 Plan.

In September 2017, the Company adopted the 2017 Omnibus Incentive Plan, or the 2017 Plan. The 2017 Plan authorizes the Company to grant options and performance-based and non-performance based restricted stock awards as well as various other types of stock-based and other awards that are not stock-based to eligible employees, consultants and non-employee directors up to an aggregate of 600,000 shares of common stock. At June 30, 2019, 316,216 shares were available for future grant under the 2017 Plan.

[Table of Contents](#)

Stock option activity for the periods shown below was as follows:

	Six Months Ended June 30,			
	2019		2018	
	Number of Shares Underlying Options	Weighted Average Exercise Price	Number of Shares Underlying Options	Weighted Average Exercise Price
Outstanding at beginning of period	232,322	\$ 16.66	260,322	\$ 16.00
Granted	—	—	—	—
Exercised	(14,844)	12.62	(25,400)	9.85
Forfeited	(2,000)	18.25	—	—
Outstanding at end of period	215,478	16.93	234,922	16.67

A summary of stock options as of the dates shown below was as follows:

Stock Options	June 30, 2019		
	Exercisable	Unvested	Outstanding
Number of shares underlying options	145,279	70,199	215,478
Weighted-average exercise price per share	\$ 15.43	\$ 20.03	\$ 16.93
Aggregate intrinsic value (in thousands)	\$ 1,847	\$ 569	\$ 2,416
Weighted-average remaining contractual term (years)	5.2	7.5	6.0

The fair value of the Company's restricted stock awards is estimated based on the market value of the Company's common stock at the date of grant. Restricted stock shares are considered fully issued at the time of the grant and the grantee becomes the record owner of the restricted stock and has voting, dividend and other shareholder rights. The shares of restricted stock are non-transferable and subject to forfeiture until the restricted stock vests and any dividends with respect to the restricted stock are subject to the same restrictions, including the risk of forfeiture.

Non-performance based restricted stock grants vest over the service period in equal increments over a period of two to five years, beginning on the first anniversary of the date of grant.

The number of shares earned under the Company's performance-based restricted stock award agreements is based on the achievement of certain branch production goals. Compensation expense for performance-based restricted stock is recognized for the probable award level over the period estimated to achieve the performance conditions and other goals, on a straight-line basis. If the probable award level and/or the period estimated to be achieved change, compensation expense will be adjusted via a cumulative catch-up adjustment to reflect these changes. The performance conditions goals must be achieved within five years or the awards expire. The number of performance-based shares granted presented in the table below is based upon the attainment of the maximum number of shares possible to be earned.

[Table of Contents](#)

Restricted stock activity for the periods shown below was as follows:

	Non-performance Based		Performance-based	
	Number of Shares	Weighted Average Grant Date Fair Value	Number of Shares	Weighted Average Grant Date Fair Value
Outstanding at December 31, 2017	212,580	\$ 26.71	—	\$ —
Granted	18,500	29.71	—	—
Vested	—	—	—	—
Forfeited	—	—	—	—
Outstanding at June 30, 2018	<u>231,080</u>	\$ 26.95	<u>—</u>	\$ —
Outstanding at December 31, 2018	181,773	27.05	24,000	34.46
Granted	35,687	32.26	—	—
Vested	(3,100)	29.69	—	—
Forfeited	(3,207)	29.98	—	—
Outstanding at June 30, 2019	<u>211,153</u>	\$ 27.85	<u>24,000</u>	\$ 34.46

A summary of restricted stock as of the dates shown below was as follows:

Restricted Stock	June 30, 2019	
	Non-performance Based	Performance-based
Number of shares underlying restricted stock	211,153	24,000
Weighted-average grant date fair value per share	\$ 27.85	\$ 34.46
Aggregate fair value (in thousands)	\$ 5,942	\$ 675
Weighted-average remaining vesting period (years)	3.1	2.6

The Company's stock compensation plans allow employees to elect to have shares withheld to satisfy their tax liabilities related to options exercised or restricted stock vested or to pay the exercise price of the options. During the periods shown below, the shares of stock options exercised and restricted stock vested, shares withheld and shares issued were as follows:

	Three Months Ended June 30, 2019		
	Exercised/Vested	Shares Withheld	Shares Issued
Stock Options	4,000	(2,038)	1,962
Restricted Stock	2,800	(569)	2,231
	Six Months Ended June 30, 2019		
	Exercised/Vested	Shares Withheld	Shares Issued
Stock Options	14,844	(2,038)	12,806
Restricted Stock	3,100	(658)	2,442

There were no shares withheld for options exercised or restricted stock vested in the six months ended June 30, 2018.

For the three and six months ended June 30, 2019 and 2018, stock compensation expense was \$567,000, \$347,000, \$1.1 million and \$739,000, respectively. As of June 30, 2019, there was approximately \$5.9 million of total unrecognized compensation expense related to the stock-based compensation arrangements, which is expected to be recognized in the Company's consolidated statements of income over a weighted-average period of 3.0 years.

## **NOTE 21: REGULATORY MATTERS**

### *Regulatory Capital*

Banks and bank holding companies are subject to various regulatory capital requirements administered by state and federal banking agencies. Capital adequacy guidelines and, additionally for banks, prompt corrective action regulations, involve quantitative measures of assets, liabilities, and certain off-balance-sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by regulators about components, risk weighting and other factors.

The Company and the Bank's Common Equity Tier 1 capital includes common stock and related capital surplus, net of treasury stock, and retained earnings. In connection with the adoption of the Basel III Capital Rules, the Company and the Bank elected to opt-out of the requirement to include most components of accumulated other comprehensive income in Common Equity Tier 1. Common Equity Tier 1 for both the Company and the Bank is reduced by goodwill and other intangible assets, net of associated deferred tax liabilities, and subject to transition provisions.

The Basel III Capital Rules require the Company and the Bank to maintain (i) a minimum ratio of Common Equity Tier 1 capital to risk-weighted assets of at least 4.5%, plus a 2.5% "capital conservation buffer" (which is added to the 4.5% Common Equity Tier 1 capital ratio as that buffer is phased in, effectively resulting in a minimum ratio of Common Equity Tier 1 capital to risk-weighted assets of at least 7.0% upon full implementation), (ii) a minimum ratio of Tier 1 capital to risk-weighted assets of at least 6.0%, plus the capital conservation buffer (which is added to the 6.0% Tier 1 capital ratio as that buffer is phased in, effectively resulting in a minimum Tier 1 capital ratio of 8.5% upon full implementation), (iii) a minimum ratio of Total capital (that is, Tier 1 plus Tier 2) to risk-weighted assets of at least 8.0%, plus the capital conservation buffer (which is added to the 8.0% total capital ratio as that buffer is phased in, effectively resulting in a minimum total capital ratio of 10.5% upon full implementation) and (iv) a minimum leverage ratio of 4.0%, calculated as the ratio of Tier 1 capital to average quarterly assets.

The implementation of the capital conservation buffer began on January 1, 2016 at the 0.625% level and was phased in over a four-year period (increasing by that amount on each subsequent January 1, until it reached 2.5% on January 1, 2019). The Basel III Capital Rules also provide for a "countercyclical capital buffer" that is applicable to only certain covered institutions and does not have any current applicability to the Company and the Bank. The capital conservation buffer is designed to absorb losses during periods of economic stress and, as detailed above, effectively increases the minimum required risk-weighted capital ratios. Banking institutions with a ratio of Common Equity Tier 1 capital to risk-weighted assets below the effective minimum (4.5% plus the capital conservation buffer and, if applicable, the countercyclical capital buffer) will face constraints on dividends, equity repurchases, and compensation based on the amount of the shortfall.

The Company and the Bank are subject to the regulatory capital requirements administered by the Federal Reserve and, for the Bank, the OCC. Regulatory authorities can initiate certain mandatory actions if the Company or the Bank fail to meet the minimum capital requirements, which could have a direct material effect on the Company's financial statements. Management believes, as of June 30, 2019 and December 31, 2018, that the Company and the Bank met all capital adequacy requirements to which they were subject.

### *Dividend Restrictions*

In the ordinary course of business, the Company may be dependent upon dividends from the Bank to provide funds for the payment of dividends to shareholders and to provide for other cash requirements. Banking regulations may limit the amount of dividends that may be paid. Approval by regulatory authorities is required if the effect of dividends declared would cause the regulatory capital of the Bank to fall below specified minimum levels. Approval is also required if dividends declared exceed the net profits for that year combined with the retained net profits for the preceding two years.

**NOTE 22: INCOME TAXES**

The provision for income tax expense and effective tax rates for the periods shown below were as follows:

(Dollars in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Provision for income tax expense	\$ 3,077	\$ 2,638	\$ 5,676	\$ 4,777
Effective tax rate	17.69%	19.28%	18.62%	19.16%

The differences between the federal statutory rate of 21% and the effective tax rates presented in the table above were largely attributable to permanent differences primarily related to tax exempt interest income and bank-owned life insurance related earnings.

**NOTE 23: EARNINGS PER SHARE**

The computation of basic and diluted earnings per share for the periods shown was as follows:

(Dollars in thousands, except per share data)	Three Months Ended June 30,		Six Months Ended June 30,	
	2019	2018	2019	2018
Net income for common shareholders	\$ 14,315	\$ 11,042	\$ 24,805	\$ 20,154

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Cautionary Note Regarding Forward-looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements. These forward-looking statements reflect our current views with respect to, among other things, future events and our financial performance. These statements are often, but not always, made through the use of words or phrases such as "may," "should," "could," "predict," "potential," "believe," "will likely result," "expect," "continue," "will," "anticipate," "seek," "estimate," "intend," "plan," "projection," "would" and "outlook," or the negative version of those words or other comparable words or phrases of a future or forward-looking nature. These forward-looking statements are not historical facts, and are based on current expectations, estimates and projections about our industry, management's beliefs and certain assumptions made by management, many of which, by their nature, are inherently uncertain and beyond our control. Accordingly, we caution you that any such forward-looking statements are not guarantees of future performance and are subject to risks, assumptions and uncertainties that are difficult to predict. Although we believe that the expectations reflected in these forward-looking statements are reasonable as of the date made, actual results may prove to be materially different from the results expressed or implied by the forward-looking statements.

There are or will be important factors that could cause our actual results to differ materially from those indicated in these forward-looking statements, including, but not limited to, the risks described in Part I — Item 1A. — Risk Factors in our Annual Report on Form 10-K and the following:

- natural disasters and adverse weather, acts of terrorism, an outbreak of hostilities or other international or domestic calamities and other matters beyond our control;
- the geographic concentration of our markets in Beaumont and Houston, Texas;
- our ability to prudently manage our growth and execute our strategy;
- risks associated with our acquisition and *de novo* branching strategy, including our entry into new markets;
- changes in management personnel;
- the amount of nonperforming and classified assets that we hold and the time and effort necessary to resolve nonperforming assets;
- deterioration of our asset quality;
- interest rate risk associated with our business;
- business and economic conditions generally and in the financial services industry, nationally and within our primary markets;
- volatility and direction of oil prices and the strength of the energy industry, generally and within Texas;
- the composition of our loan portfolio, including the identity of our borrowers and the concentration of loans in specialized industries;
- changes in the value of collateral securing our loans;
- our ability to maintain important deposit customer relationships and our reputation;
- our ability to maintain effective internal control over financial reporting;
- increased competition in the financial services industry, particularly from regional and national institutions;
- volatility and direction of market interest rates;
- liquidity risks associated with our business;
- systems failures or interruptions involving our information technology and telecommunications systems or third-party servicers;
- interruptions or breaches in our information system security;
- the failure of certain third-party vendors to perform;
- environmental liability associated with our lending activities;
- the institution and outcome of litigation and other legal proceedings against us or to which we may become subject;

## [Table of Contents](#)

- the costs and effects of regulatory or other governmental inquiries, the results of regulatory examinations, investigations, or reviews or the ability to obtain required regulatory approvals;
- changes in the laws, rules, regulations, interpretations or policies relating to financial institution, accounting, tax, trade, monetary and fiscal matters;
- further government intervention in the U.S. financial system;
- other risks, uncertainties, and factors that are discussed from time to time in our reports and documents filed with the SEC; and
- other factors that are discussed in the section to this Quarterly Report on Form 10-Q entitled “Risk Factors”.

The foregoing factors should not be construed as exhaustive and should be read together with the other cautionary statements included in this Quarterly Report on Form 10-Q. If one or more events related to these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may differ materially from what we anticipate. Accordingly, you should not place undue reliance on any such forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made, and we do not undertake any obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise. New factors emerge from time to time, and it is not possible for us to predict which will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and the accompanying notes included in Item I of Part I of this Quarterly Report on Form 10-Q, as well as our consolidated financial statements and the accompanying notes for the year ended December 31, 2018, included in our Annual Report on Form 10-K. In this Quarterly Report on Form 10-Q, unless otherwise indicated or the context otherwise requires, all references to “we,” “our,” “us,” “ourselves,” and “the Company” refer to CBTX, Inc., a Texas corporation, and its consolidated subsidiary. All references in this Quarterly Report on Form 10-Q to “CommunityBank of Texas” or “the Bank” refer to CommunityBank of Texas, National Association, our wholly-owned bank subsidiary.

### **Overview**

We operate through one segment, community banking. Our primary source of funds is deposits and our primary use of funds is loans. Most of our revenue is generated from interest on loans and investments. We incur interest expense on deposits and other borrowed funds as well as noninterest expense, such as salaries and employee benefits and occupancy expenses.

Our operating results depend primarily on our net interest income, calculated as the difference between interest income on interest-earning assets, such as loans and securities, and interest expense on interest-bearing liabilities, such as deposits and borrowings. Changes in market interest rates and the interest rates we earn on interest-earning assets or pay on interest-bearing liabilities, as well as in the volume and types of interest-earning asset and interest-bearing liabilities, are usually the largest drivers of periodic changes in net interest spread, net interest margin and net interest income. Fluctuations in market interest rates are driven by many factors, including governmental monetary policies, inflation, deflation, macroeconomic developments, changes in unemployment, the money supply, political and international conditions and conditions in domestic and foreign financial markets.

Periodic changes in the volume and types of loans in our loan portfolio are affected by, among other factors, economic and competitive conditions in Texas, as well as developments affecting the real estate, technology, financial services, insurance, transportation, manufacturing and energy sectors within our target markets and throughout the state of Texas. We maintain diversity in our loan portfolio as a means of managing risk associated with fluctuations in economic conditions. Our focus on lending to small to medium-sized businesses and professionals in our market areas has resulted in a diverse loan portfolio comprised primarily of core relationships. We carefully monitor exposure to certain asset classes to minimize the impact of a downturn in the value of such assets.

We seek to remain competitive with respect to interest rates on loans and deposits, as well as prices on fee-based services, which are typically significant competitive factors within the banking and financial services industry. Many of our competitors are much larger financial institutions that have greater financial resources than we do and compete

aggressively for market share. Through our relationship-driven, community banking strategy, a significant portion of our continued growth has been through referral business from our existing customers and professionals in our markets including attorneys, accountants and other professional service providers.

The Bank is the subject of an investigation by the Financial Crimes Enforcement Network, or FinCEN, of the U.S. Department of the Treasury regarding the Bank's compliance with the Bank Secrecy Act and anti-money laundering laws and regulations. The Bank is cooperating with this investigation. The costs to respond to and cooperate with FinCEN's investigation have been material over the course of the period of this report, and the Bank expects to continue to incur material fees and expenses regarding this matter at least through the completion of FinCEN's investigation.

## Results of Operations

Net income for the three and six months ended June 30, 2019 increased 29.6% and 23.1%, respectively, compared to the three and six months ended June 30, 2018. These increases are primarily due to increased net interest income and noninterest income, partially offset by higher noninterest expense. See further analysis of these fluctuations in the related discussions that follow.

(2) Efficiency ratio represents noninterest expense divided by the sum of net interest income and noninterest income.

### Net Interest Income for the Six Months Ended June 30, 2019 Compared to the Six Months Ended June 30, 2018.

Net interest income for the six months ended June 30, 2019 was \$67.6 million, compared to \$59.9 million for six months ended June 30, 2018, an increase of \$7.7 million, or 12.9%. The increase in net interest income in the six months of 2019, compared to the six months of 2018 was primarily due to higher average loans, higher average yields on loans and higher average yields on federal funds sold and other interest-earning assets, partially offset by the impact of average higher rates on interest-bearing deposits. Average loans increased in the first six months of 2019 due to organic growth and the increase in average loan yields reflects rates in the market. The increase in average rates on interest-bearing deposits in the first six months of 2019 was mainly due to competitive stress on rates primarily for certificates of deposit and money market accounts. Although rates have increased on the Company's interest-bearing deposits, they remain a low cost source of funds compared to other sources such as debt.

*Net Interest Income for the Three Months Ended June 30, 2019 Compared to the Three Months Ended June 30, 2018.*

Net interest income for the three months ended June 30, 2019 was \$34.3 million, compared to \$30.9 million for three months ended June 30, 2018, an increase of \$3.4 million, or 11.1%. The increase in net interest income between these periods was primarily due to higher average loans, higher average yields on loans and higher average yields on federal funds sold and other interest-earning assets, partially offset by the impact of average higher rates on interest-bearing deposits.

Increase in net interest income	\$ 2,517	\$ 906	\$ 3,423

*Provision for Loan Losses*

The provision for loan losses is an expense used to maintain an allowance for loan losses at a level which is deemed appropriate by management to absorb inherent losses on existing loans. The provision for loan losses increased \$399,000 to \$2.0 million for the six months ended June 30, 2019, compared to \$1.6 million for the six months ended June 30, 2018, reflecting the increase in loans during those periods.

The provision for loan losses for the three months ended June 30, 2019 was \$807,000 compared to \$690,000 for the three months ended June 30, 2018. The increase in the provision for loan losses between these periods of \$117,000 reflects the increase in loans during those periods.

*Noninterest Income*

For the three months and six months ended June 30, 2019, noninterest income increased \$3.8 million and \$3.9 million, respectively, compared to the three and six months ended June 30, 2018, primarily due to increased earnings on bank-owned life insurance. See further analysis of these fluctuations in the related discussions that follow.

(Dollars in thousands)	Three Months Ended June 30,				Six Months Ended June 30,			
	2019	2018	Increase (Decrease)		2019	2018	Increase (Decrease)	
Deposit account service charges	\$ 1,657	\$ 1,497	\$ 160	10.7%	\$ 3,286	\$ 2,975	\$ 311	10.5%
Net gain on sale of assets	69	210	(141)	(67.1%)	157	340	(183)	(53.8%)
Card interchange fees	941	971	(30)	(3.1%)	1,805	1,898	(93)	(4.9%)
Earnings on bank-owned life insurance	3,721	465	3,256	700.2%	4,151	916	3,235	353.2%
Other	915	363	552	152.1%	1,397	738	659	89.3%
Total noninterest income	\$ 7,303	\$ 3,506	\$ 3,797	108.3%	\$ 10,796	\$ 6,867	\$ 3,929	57.2%

*Deposit Account Service Charges.* Service charges on deposit accounts increased \$160,000 and \$311,000, respectively, for the three and six months ended June 30, 2019, compared to the same periods in 2018, predominately due to an increase in non-sufficient and account analysis charges incurred by the Company's deposit customers.

[Table of Contents](#)

*Net Gain on Sale of Assets.* Net gain on sale of assets consists of the gains associated with the sale of fixed assets, loans and other real estate owned, or OREO. Net gain on sale of assets decreased \$141,000 and \$183,000, respectively, for the three and six months ended June 30, 2019, compared to the same periods in 2018, primarily due to lower gains on sales of loans held for sale during the 2019.

*Earnings on bank-owned life insurance.* The Company has purchased life insurance policies on certain employees, that are carried at their cash surrender value on the condensed consolidated balance sheet and changes in the cash surrender value of the policies are recorded in noninterest income. Earnings on bank-owned life insurance increased \$3.3 million and \$3.2 million, respectively, during the three and six months ended June 30, 2019, compared to the same periods of 2018 due to nontaxable death benefit proceeds of \$4.7 million received under bank-owned insurance policies. The Company recorded a gain of \$3.3 million over the cash surrender value during the three and six months ended June 30, 2019.

*Other.* This category includes a variety of other income-producing activities, including partnership and investment fund income, other loan fees, swap origination charges, wire transfer fees, credit card program income and other fee income. Other noninterest income increased during the three and six months ended June 30, 2019, compared to the same periods of the prior year due to increased swap origination charges.

*Noninterest Expense*

Generally, noninterest expense is composed of employee expenses and costs associated with operating facilities, obtaining and retaining customer relationships and providing bank services. For the three and six months ended June 30, 2019, compared to the same period of the prior year, noninterest expense increased primarily due to increased salaries and employee benefits and professional and director fees. See further analysis of these fluctuations in the related discussions that follow.

*Salaries and Employee Benefits.* Salaries and benefits increased \$1.7 million and \$2.8 million in the three and six months ended June 30, 2019 as compared to the same periods in the prior year as a result of annual salary increases in 2019, increased headcount and increased stock compensation expense due to restricted stock grants.

*Professional and Director Fees.* Professional and director fees include legal, audit, loan review and consulting fees. The increase during the three and six months ended June 30, 2019, compared to the same periods in 2018 is primarily due to increased legal fees incurred in the Bank's responding and cooperating with an investigation by FinCEN regarding

[Table of Contents](#)

the Bank's compliance with the Bank Secrecy Act and anti-money laundering laws and regulations. The Bank incurred legal fees of \$1.4 million and \$2.5 million in the three and six months ended June 30, 2019, respectively.

*Income Tax Expense*

The amount of income tax expense is impacted by the amounts of pre-tax income, tax-exempt income and other nondeductible expenses. Deferred tax assets and liabilities are reflected at current income tax rates in effect for the period in which the deferred tax assets and liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

The provision for income tax expense and effective tax rates for the periods shown below were as follows:

<u>(Dollars in thousands)</u>	<u>Three Months Ended June 30,</u>		<u>Six Months Ended June 30,</u>	
	<u>2019</u>	<u>2018</u>	<u>2019</u>	<u>2018</u>
Provision for income tax expense	\$ 3,077	\$ 2,638	\$ 5,676	\$ 4,777
Effective tax rate	17.69%	19.28%	18.62%	19.16%

The differences between the federal statutory rate of 21% and the effective tax rates presented in the table above were largely attributable to the non-taxable gain related to bank-owned life insurance.

**Financial Condition**

Total assets were \$3.4 billion as of June 30, 2019, compared to \$3.3 billion as of December 31, 2018, an increase of \$100.4 million primarily due to an increase in loans of \$193.8 million and a \$12.4 million increase due to operating lease right-to-use assets, partially offset by a \$115.3 million decrease in cash and cash equivalents. Total liabilities increased \$74.9 million primarily due to a \$90.0 million increase in FHLB advances and an increase of \$14.8 million due to operating lease liabilities, partially offset by a \$27.4 million decrease in deposits. Operating lease right-to-use assets and operating lease liabilities were added due to the implementation of the new lease accounting standard. See Note 1 and Note 16 to the condensed consolidated financial statements for further discussion of the new lease accounting standard. See further analysis of the other changes in the related discussions that follow.

[Table of Contents](#)

*Loan Portfolio*

As of June 30, 2019, loans were \$2.6 billion, an increase of \$193.8 million, or 8.0%, compared to \$2.4 billion at December 31, 2018. The increase in loans was primarily due to organic growth and increased capital needs of existing customers.

The loan portfolio by loan class as of the dates indicated was as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>	<b>December 31, 2018</b>	<b>Increase (Decrease)</b>	
Commercial and industrial	\$ 540,084	\$ 519,779	\$ 20,305	3.9%

[Table of Contents](#)*Nonperforming Assets*

Nonperforming assets include nonaccrual loans, loans that are accruing over 90 days past due and foreclosed assets. Generally loans are placed on nonaccrual status when they become more than 90 days past due and/or the collection of principal or interest is in doubt. The components of nonperforming assets as of the dates indicated were as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>	<b>December 31, 2018</b>
Nonaccrual loans by category:		
Commercial and industrial	\$ 1,795	\$ 1,317
Real estate:		
Commercial real estate	850	1,517
1-4 family residential	624	656
Total nonaccrual loans	3,269	3,490

Total nonperforming assets	\$ 3,314	\$ 3,502
Nonperforming loans to total loans	0.12%	0.14%
Nonperforming assets to total assets	0.10%	0.11%

*Risk Grading*

As part of the on-going monitoring of the credit quality of the Company's loan portfolio and methodology for calculating the allowance for loan losses, management assigns and tracks loan grades as described below that are used as credit quality indicators.

Pass—Credits in this category contain an acceptable amount of risk.

Special Mention—Credits in this category contain more than the normal amount of risk and are referred to as "*special mention*" in accordance with regulatory guidelines. These credits possess clearly identifiable temporary weaknesses or trends that, if not corrected or revised, may result in a condition that exposes the Company to higher level of risk of loss.

Substandard—Credits in this category are "*substandard*" in accordance with regulatory guidelines and of unsatisfactory credit quality with well-defined weaknesses or weaknesses that jeopardize the liquidation of the debt. Credits in this category are inadequately protected by the current sound worth and paying capacity of the obligor or the collateral pledged, if any. Often, the assets in this category will have a valuation allowance representative of management's estimated loss that is probable to be incurred. Loans deemed substandard and on nonaccrual status are considered impaired and are individually evaluated for impairment.

Doubtful—Credits in this category are considered "*doubtful*" in accordance with regulatory guidelines, are placed on nonaccrual status and may be dependent upon collateral having a value that is difficult to determine or upon some near-term event which lacks certainty. Generally, these credits will have a valuation allowance based upon management's best estimate of the losses probable to occur in the liquidation of the debt.

Loss—Credits in this category are considered "*loss*" in accordance with regulatory guidelines and are considered uncollectible and of such little value as to question their continued existence as assets on the Company's financial statements. Such credits are to be charged off or charged down when payment is acknowledged to be uncertain or when the timing or value of payments cannot be determined. This category does not intend to imply that the debt or some portion of it will never be paid, nor does it in any way imply that the debt will be forgiven.

[Table of Contents](#)

The Company had no loans graded “loss” or “doubtful” at June 30, 2019 and December 31, 2018.

The internal ratings of loans as of the dates indicated were as follows:

<u>(Dollars in thousands)</u>	<u>Pass</u>	<u>Special Mention</u>	<u>Substandard</u>	<u>Total</u>

Total	<u>\$ 2,404,521</u>	<u>\$ 22,763</u>	<u>\$ 25,845</u>	<u>\$ 2,453,129</u>

*Allowance for Loan Losses*

The Company maintains an allowance for loan losses that represents management’s best estimate of the loan losses and risks inherent in the loan portfolio. The amount of the allowance for loan losses should not be interpreted as an indication that charge-offs in future periods will necessarily occur in those amounts. In determining the allowance for loan losses, the Company estimates losses on specific loans, or groups of loans, where the probable loss can be identified and reasonably determined. The balance of the allowance for loan losses is based on internally assigned risk classifications of loans, historical loan loss rates, changes in the loan portfolio, overall portfolio quality, industry concentrations, delinquency trends, current economic factors and the estimated impact of current economic conditions on certain historical loan loss rates. See “—Critical Accounting Policies—Loans and Allowance for Loan Losses.”

In reviewing the loan portfolio, the Company considers risk elements applicable to particular loan types or categories to assess the quality of individual loans. Some of the risk elements considered include:

Commercial and industrial loans—the debt service coverage ratio (income from the business in excess of operating expenses compared to loan repayment requirements), the operating results of the commercial, industrial or professional enterprise, the borrower’s business, professional and financial ability and expertise, the specific risks and volatility of income and operating results typical for businesses in that category and the value, nature and marketability of collateral;

Commercial real estate loans and multi-family residential loans—the debt service coverage ratio, operating results of the owner in the case of owner-occupied properties, the loan-to-value ratio, the age and condition of the collateral and the volatility of income, property value and future operating results typical of properties of that type;

[Table of Contents](#)

1-4 family residential mortgage loans—the borrower’s ability to repay the loan, including a consideration of the debt-to-income ratio and employment and income stability, the loan-to-value ratio and the age, condition and marketability of the collateral; and

Construction and development loans—the perceived feasibility of the project including the ability to sell developed lots or improvements constructed for resale or the ability to lease property constructed for lease, the quality and nature of contracts for presale or prelease, if any, experience and ability of the developer and loan-to-value ratio.

Activity in the allowance for loan losses as of the dates indicated was as follows:

(Dollars in thousands)	Six Months Ended June 30,	
	2019	2018

[Table of Contents](#)

*Securities*

As of June 30, 2019, the carrying amount of the Company's securities totaled \$232.6 million compared to \$230.0 million as of December 31, 2018, an increase of \$2.6 million or 1.1%. Amortized cost decreased \$3.1 million as a result of maturities, sales, calls and paydowns outpacing purchases. The unrealized gains (losses) of the security portfolio was a net gain of \$2.0 million at June 30, 2019 and a net loss of \$3.8 million at December 31, 2018. This change of \$5.8 million was due to changing market interest rates.

Amortized cost and estimated fair value of investments in securities as of the dates shown was as follows.

<u>(Dollars in thousands)</u>	<u>Amortized Cost</u>	<u>Gross Unrealized Gains</u>	<u>Gross Unrealized Losses</u>	<u>Fair Value</u>
<b>June 30, 2019</b>

Securities held to maturity:				
Mortgage-backed securities	<u>\$ 31</u>	<u>\$ 1</u>	<u>\$ —</u>	<u>\$ 32</u>

The Company held 74 securities at June 30, 2019 and 100 securities at December 31, 2018, respectively, that were in a gross unrealized loss position for 12 months or more as illustrated in the table below. The unrealized losses are attributable primarily to changes in market interest rates relative to those available when the securities were acquired. The fair value of these securities is expected to recover as the securities reach their maturity or re-pricing date, or if changes in market rates for such investments decline. Management does not believe that any of the securities the Company holds are impaired due to reasons of credit quality and believes the unrealized losses detailed in the tables below are temporary. No impairment loss has been recorded in the Company's condensed consolidated statements of income for the six months ended June 30, 2019 and 2018.

[Table of Contents](#)

Securities with unrealized losses as of the dates shown below, aggregated by category and the length of time were as follows:

(Dollars in thousands)	Less Than Twelve Months		Twelve Months or More

	<u>\$ 51,491</u>	<u>\$ (773)</u>	<u>\$ 116,894</u>	<u>\$ (3,666)</u>

The Company's mortgage-backed securities at June 30, 2019 and December 31, 2018, were agency securities. The Company does not hold any Fannie Mae or Freddie Mac preferred stock, corporate equity, collateralized debt obligations, collateralized loan obligations, structured investment vehicles, private label collateralized mortgage obligations, subprime, Alt-A or second lien elements in the securities portfolio.

Contractual maturities and weighted-average yield based on annualized income divided by the average amortized cost of the available for sale securities portfolio as of the date indicated was as follows:

(Dollars in thousands)	1 Year or Less		After 1 Year to 5 years		After 5 Years to 10 Years		After 10 Years		Total	
	Amount	Yield	Amount	Yield	Amount	Yield	Amount	Yield	Total	Yield

The contractual maturity of a collateralized mortgage obligation or mortgage-backed security is the date at which the last underlying mortgage matures and is not a reliable indicator of their expected life because borrowers have the right to prepay their obligations at any time. The weighted-average life of the securities portfolio was 4.1 years with an estimated modified duration of 3.7 years as of June 30, 2019.

A portion of the securities have contractual maturities extending beyond 10 years, bear fixed rates of interest and are collateralized by residential mortgages. Repayment of principal on these bonds is primarily dependent on the cash flows received from payments on the underlying collateral to the bond issuer and therefore, the likelihood of prepayment is impacted by the economic environment. During a period of increasing interest rates, fixed rate mortgage-backed

[Table of Contents](#)

securities do not tend to experience heavy prepayments and as a result, the average lives of these securities are lengthened. If interest rates fall, prepayments tend to increase and as a result the lives of these securities are shortened.

As of June 30, 2019, the Company did not own securities of any one issuer, other than the U.S. government and its agencies, for which aggregate adjusted cost exceeded 10.0% of consolidated shareholders' equity.

*Deposits*

Total deposits as of June 30, 2019, were \$2.7 billion, a decrease of \$27.4 million, or 1.0%, compared to December 31, 2018. Noninterest-bearing deposits as of June 30, 2019, were \$1.2 billion, an increase of \$18.2 million, or 1.5%, compared to December 31, 2018. Total interest-bearing account balances as of June 30, 2019, were \$1.5 billion, a decrease of \$45.6 million, or 2.9% from December 31, 2018. The changes in deposits from December 31, 2018 to June 30, 2019 are due to normal fluctuations in customer activities.

The components of deposits at the dates shown below were as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>		<b>December 31, 2018</b>	
	<b>Amount</b>	<b>Percent</b>	<b>Amount</b>	<b>Percent</b>
Interest-bearing demand accounts	\$ 351,326	12.8%	\$ 387,457	14.0%
Money market accounts	717,883	26.2%	737,770	26.7%

Certificates and other time deposits, \$100,000 or greater	189,741	6.9%	189,007	6.8%
Certificates and other time deposits, less than \$100,000	186,842	6.8%	172,028	6.2%
Total interest-bearing deposits	1,537,620	56.1%	1,583,224	57.2%
Noninterest-bearing deposits	1,201,287	43.9%	1,183,058	42.8%
Total deposits	\$ 2,738,907	100.0%	\$ 2,766,282	100.0%

At June 30, 2019 and December 31, 2018, the Company had \$53.3 million and \$51.5 million in deposits from public entities and brokered deposits of \$122.4 million and \$104.5 million, respectively. The Company had no major concentrations of deposits at June 30, 2019 or December 31, 2018 from any single or related groups of depositors.

Certificates of deposit by time remaining until maturity as of the dates indicated were as follows:

<b>(Dollars in thousands)</b>	<b>June 30, 2019</b>	<b>December 31, 2018</b>
Three months or less	\$ 77,214	\$ 71,817
Over three months through six months	62,988	50,966
Over six months through 12 months	115,907	119,180
Over 12 months through three years	108,957	108,436
Over three years	11,517	10,636
Total	\$ 376,583	\$ 361,035

[Table of Contents](#)

Average balances and average rates paid on deposits for the periods indicated are shown in the table below. Average rates paid for the six months ended June 30, 2019 were computed on an annualized basis.

(Dollars in thousands)	Six Months Ended June 30, 2019		Year Ended December 31, 2018	
	Average Balance	Average Rate	Average Balance	Average Rate
Interest-bearing demand accounts	\$ 359,124	0.25 %	\$ 362,498	0.23 %
Savings accounts	94,607	0.06 %	94,754	0.06 %
Money market accounts	709,782	1.25 %	714,565	0.87 %
Certificates and other time deposits, \$100,000 or greater	186,636	1.27 %	173,160	0.79 %
Certificates and other time deposits, less than \$100,000	179,134	1.55 %	174,666	1.23 %
Total interest-bearing deposits	1,529,283	0.98 %	1,519,643	0.70 %
Noninterest-bearing deposits	1,185,919	—	1,134,191	—
Total deposits	\$ 2,715,202	0.55 %	\$ 2,653,834	0.40 %

The ratio of average noninterest-bearing deposits to average total deposits was 56.3% for the six months ended June 30, 2019 and 42.7% for the year ended December 31, 2018.

*Borrowings*

*Frost Line of Credit.* The Company has entered into a loan agreement, or the Loan Agreement, with Frost Bank, which provides for a \$30.0 million revolving line of credit, or Line of Credit. The Loan Agreement was amended and restated on December 13, 2018 and, as amended, is referred to as the Amended Agreement. The Company can make draws on the Line of Credit for a period of 12 months beginning on the date of the Amended Agreement, after which the Company will not be permitted to make further draws and the outstanding balance will amortize over a period of 60 months. Interest accrues on outstanding borrowings at a rate equal to the maximum “Latest” U.S. prime rate of interest per annum and payable quarterly in the first 12 months and thereafter quarterly principal and interest payments are required over a term of 60 months. The entire outstanding balance and unpaid interest is payable in full on December 13, 2024.

The Company may prepay the principal amount of any loan under the Amended Agreement without premium or penalty. The obligations of the Company under the Amended Agreement are secured by a valid and perfected first priority lien on all of the issued and outstanding shares of capital stock of the Bank.

Covenants made under the Amended Agreement include, among other things, the Company maintaining tangible net worth of not less than \$300 million, the Company maintaining free cash flow coverage ratio of not less than 1.25 to 1.00, the Bank’s Texas Ratio (as defined under the Amended Agreement) not to exceed 15%, the Bank’s Total Capital Ratio (as defined under the Amended Agreement) of not less than 12% and restrictions on the ability of the Company and its subsidiaries to incur certain additional debt. The Company was in compliance with these covenants at June 30, 2019.

As of June 30, 2019, there were no outstanding borrowings on the Line of Credit and the Company has not drawn on this line since the Company entered the agreement.

*FHLB Advances*

The FHLB allows the Company to borrow on a blanket floating lien status collateralized by certain loans. As of June 30, 2019 and December 31, 2018, total borrowing capacity of \$875.7 million and \$919.9 million, respectively, was available under this arrangement. During the first and second quarter of 2019 and the second and third quarter of 2018, the Company borrowed under this agreement on a short-term basis. As of June 30, 2019, \$90.0 million of FHLB advances were outstanding and December 31, 2018, there were no outstanding FHLB advances. The average outstanding balance for FHLB advances for the six months ended June 30, 2019 and 2018 was \$46.6 million and \$1.1 million, respectively. The weighted-average rate for the six months ended June 30, 2019 and 2018 was 2.54% and 2.19%, respectively.

**Liquidity and Capital Resources***Liquidity*

Liquidity involves our ability to raise funds to support asset growth and acquisitions or reduce assets to meet deposit withdrawals and other payment obligations, to maintain reserve requirements and otherwise to operate on an ongoing basis and manage unexpected events. The Company's primary source of funds is deposits and the primary use of funds is loans. Historically the cost of the Company's deposits has been lower than other sources of funds available, such as debt. The Company does not expect a change in the primary source or use of funds in the foreseeable future. The composition of funding sources and uses as a percentage of average total assets for the periods indicated was as follows:

	Six Months Ended June 30, 2019	Year Ended December 31, 2018
<b>Sources of funds:</b>		
Deposits:		
Interest-bearing	46.4 %	48.1 %
Noninterest-bearing	36.0 %	35.9 %
FHLB advances and repurchase agreements	1.4 %	0.2 %
Note payable and junior subordinated debt	— %	0.4 %
Other liabilities	1.0 %	0.7 %
Shareholders' equity	15.2 %	14.7 %
Total sources	<u>100.0 %</u>	<u>100.0 %</u>
<b>Uses of funds:</b>		
Loans	77.2 %	75.8 %
Securities	7.0 %	7.2 %
Federal funds sold and other interest-earning assets	7.0 %	8.1 %
Equity securities	0.4 %	0.5 %
Other noninterest-earning assets	8.4 %	8.4 %
Total uses	<u>100.0 %</u>	<u>100.0 %</u>
Average loans to average deposits	91.9 %	90.1 %

As of June 30, 2019, the Company had \$807.2 million in outstanding commitments to extend credit and \$28.1 million in commitments associated with outstanding standby and commercial letters of credit. Since commitments associated with letters of credit and commitments to extend credit may expire unused, the total outstanding may not necessarily reflect the actual future cash funding requirements.

As of June 30, 2019, there was no exposure to future cash requirements associated with known uncertainties or capital expenditure of a material nature.

As of June 30, 2019, cash and cash equivalents was of \$266.8 million, compared to \$382.1 million as of December 31, 2018, a decrease of \$115.3 million. The decrease was primarily due to an increase in loans of \$193.8 million, a \$27.4 million decrease in deposits and net income of \$24.8 million. See the condensed consolidated statement of cash flows for the six months ended June 30, 2019 for additional analysis.

*Capital Resources*

Total shareholders' equity increased to \$513.2 million as of June 30, 2019, compared to \$487.6 million as of December 31, 2018, an increase of \$25.6 million, or 5.2%, primarily due the current year income of \$24.8 million, a \$4.5 million increase in other comprehensive income and \$1.1 million of stock compensation expense, partially offset by \$5.0 million in dividends to common shareholders paid or declared during the six months ended June 30, 2019.

As a general matter, FDIC insured depository institutions and their holding companies are required to maintain minimum capital relative to the amount and types of assets they hold. The Company and the Bank are both subject to regulatory capital requirements. At June 30, 2019 and December 31, 2018, the Company and the Bank were in compliance with all applicable regulatory capital requirements at the bank holding company and bank levels, and the Bank was

[Table of Contents](#)

classified as “well capitalized” for purposes of the FDIC’s prompt corrective action regulations. The OCC or the FDIC may require the Bank to maintain capital ratios above the required minimums and the Federal Reserve may require the Company to maintain capital ratios above the required minimums. The following table presents the regulatory capital ratios for our Company and the Bank as of the dates indicated.

(Dollars in thousands)	Actual		Minimum Capital Required for Capital Adequacy Purposes		Minimum Capital Required Basel III Fully Phased-in		Required to be Considered Well Capitalized

*Contractual Obligations*

In the normal course of operations, the Company enters into certain contractual obligations, such as obligations for operating leases, certificates of deposits and borrowings. Future cash payments associated with contractual obligations, as of the dates indicated were as follows:

(Dollars in thousands)	1 year or less	More than 1 year but less than 3 years	3 years or more but less than 5 years	5 years or more	Total
<b>June 30, 2019</b>					
Federal Home Loan Bank advances	\$ 90,000	\$ —	\$ —	\$ —	\$ 90,000
Non-cancelable future operating leases	1,988	4,267	4,188	9,941	20,384
Certificates of deposit	256,109	108,957	11,517	—	376,583
Total	<u>\$ 348,097</u>	<u>\$ 113,224</u>	<u>\$ 15,705</u>	<u>\$ 9,941</u>	<u>\$ 486,967</u>
<b>December 31, 2018</b>					
Non-cancelable future operating leases	\$ 2,118	\$ 4,363	\$ 4,565	\$ 10,048	\$ 21,094
Certificates of deposit	241,963	108,436	10,636	—	361,035
Junior subordinated debt	1,571	—	—	—	1,571
Total	<u>\$ 245,652</u>	<u>\$ 112,799</u>	<u>\$ 15,201</u>	<u>\$ 10,048</u>	<u>\$ 383,700</u>

In January 2019, the trust preferred securities underlying the junior subordinated debt outstanding at December 31, 2018 were redeemed.

*Off-Balance Sheet Arrangements*

In the normal course of business, the Company enters into various transactions, which, in accordance with GAAP, are not included in the consolidated balance sheets. These transactions are entered into to meet the customer financing needs. These transactions include commitments to extend credit and standby and commercial letters of credit, which involve, to varying degrees, elements of credit risk and interest rate risk in excess of the amounts recognized in our consolidated balance sheets.

Commitments associated with outstanding standby and commercial letters of credit and commitments to extend credit expiring by period as of the date indicated are summarized below.

(Dollars in thousands)	1 year or less	More than 1 year but less than 3 years	3 years or more but less than 5 years	5 years or more	Total
<b>June 30, 2019</b>					
Standby letters of credit	\$ 16,937	\$ 6,120	\$ 5,000	\$ —	\$ 28,057
Commitments to extend credit	482,509	279,027	39,825	5,837	807,198
Total	<u>\$ 499,446</u>	<u>\$ 285,147</u>	<u>\$ 44,825</u>	<u>\$ 5,837</u>	<u>\$ 835,255</u>
<b>December 31, 2018</b>					
Standby letters of credit	\$ 22,789	\$ 3,940	\$ 5,000	\$ —	\$ 31,729
Commitments to extend credit	486,480	267,099	14,415	63,642	831,636
Total	<u>\$ 509,269</u>	<u>\$ 271,039</u>	<u>\$ 19,415</u>	<u>\$ 63,642</u>	<u>\$ 863,365</u>

Standby letters of credit are conditional commitments issued to guarantee the performance of a customer to a third party. In the event of nonperformance by the customer, the Company has rights to the underlying collateral, which can include commercial real estate, physical plant and property, inventory, receivables, cash and/or marketable securities. The Company's credit risk associated with issuing letters of credit is essentially the same as the risk involved in extending loan facilities to our customers.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and

may require payment of a fee. Since many of the commitments are expected to expire without being fully drawn upon, the total commitment amounts disclosed above do not necessarily represent future cash requirements.

### **Interest Rate Sensitivity and Market Risk**

As a financial institution, the Company's primary component of market risk is interest rate volatility. The Company's asset, liability and funds management policy provides management with the guidelines for effective funds management. A measurement system for monitoring net interest rate sensitivity position has been established and the Company has historically managed its sensitivity position within its established guidelines.

Fluctuations in interest rates will ultimately impact both the level of income and expense recorded on most of the Company's assets and liabilities and the market value of all interest-earning assets and interest-bearing liabilities, other than those which have a short-term to maturity. Interest rate risk is the potential of economic losses due to future interest rate changes. These economic losses can be reflected as a loss of future net interest income and/or a decrease in current fair market values. The objective is to measure the effect on net interest income and to adjust the balance sheet to minimize the inherent risk while at the same time maximizing income.

The Company manages exposure to interest rates by structuring our balance sheet in the ordinary course of business. The Company does not enter into instruments such as leveraged derivatives, financial options, financial future contracts or forward delivery contracts to reduce interest rate risk. Based upon the nature of our operations, the Company is not subject to foreign exchange or commodity price risk and does not own any trading assets.

The Company's exposure to interest rate risk is managed by the Funds Management Committee of the Bank, in accordance with policies approved by the Bank's Board of Directors. The committee formulates strategies based on appropriate levels of interest rate risk. In determining the appropriate level of interest rate risk, the committee considers the impact on earnings and capital of the current outlook on interest rates, potential changes in interest rates, regional economies, liquidity, business strategies and other factors. The committee meets regularly to review, among other things, the sensitivity of assets and liabilities to interest rate changes, the book and market values of assets and liabilities, unrealized gains and losses, purchase and sale activities, commitments to originate loans and the maturities of investments and borrowings. Additionally, the committee reviews liquidity, cash flow flexibility, maturities of deposits and consumer and commercial deposit activity. Management employs methodologies to manage interest rate risk, which include an analysis of relationships between interest-earning assets and interest-bearing liabilities and an interest rate shock simulation model.

The Company uses interest rate risk simulation models and shock analyses to test the interest rate sensitivity of net interest income and fair value of equity and the impact of changes in interest rates on other financial metrics. Contractual maturities and re-pricing opportunities of loans are incorporated in the model, as are prepayment assumptions, maturity data and call options within the investment portfolio. Average life of non-maturity deposit accounts are based on standard regulatory decay assumptions and are incorporated into the model. The assumptions used are inherently uncertain and the model cannot precisely measure future net interest income or precisely predict the impact of fluctuations in market interest rates on net interest income. Actual results will differ from the model's simulated results due to timing, magnitude and frequency of interest rate changes as well as changes in market conditions and the application and timing of various management strategies.

On a quarterly basis, two simulation models are run, including a static balance sheet and dynamic growth balance sheet. These models test the impact on net interest income and fair value of equity from changes in market interest rates under various scenarios. Under the static and dynamic growth models, rates are shocked instantaneously and ramped rate changes over a 12-month horizon based upon parallel and non-parallel yield curve shifts. Parallel shock scenarios assume instantaneous parallel movements in the yield curve compared to a flat yield curve scenario. Non-parallel simulation involves analysis of interest income and expense under various changes in the shape of the yield curve. The Company's internal policy regarding internal rate risk simulations currently specifies that for instantaneous parallel shifts of the yield curve, estimated net income at risk for the subsequent one-year period should not decline by more than 10% for a 100 basis-point shift, 20% for a 200-basis point shift and 30% for a 300-basis point shift.

[Table of Contents](#)

Simulated change in net interest income and fair value of equity over a 12-month horizon as of the dates indicated below were as follows:

Change in Interest Rates (Basis Points)	June 30, 2019		December 31, 2018	
	Percent Change in Net Interest Income	Percent Change in Fair Value of Equity	Percent Change in Net Interest Income	Percent Change in Fair Value of Equity
+ 300	13.5 %	2.3 %	16.7 %	(3.1)%
+ 200	9.5 %	6.1 %	11.6 %	(0.4)%
+ 100	5.1 %	5.6 %	6.1 %	1.1 %
Base	— %	— %	— %	— %
-100	(5.4)%	(14.0)%	(6.8)%	(7.6)%

The results are primarily due to behavior of demand, money market and savings deposits during such rate fluctuations. Historically, interest rates on these deposits have changed more slowly than changes in the discount and federal funds rates. This assumption is incorporated into the simulation model and is generally not fully reflected in a gap analysis. The assumptions incorporated into the model are inherently uncertain and, as a result, the model cannot precisely measure future net interest income or precisely predict the impact of fluctuations in market interest rates on net interest income. Actual results will differ from the model's simulated results due to timing, magnitude and frequency of interest rate changes as well as changes in market conditions and the application and timing of various strategies.

### Impact of Inflation

The Company's condensed consolidated financial statements and related notes included elsewhere in this Quarterly Report on Form 10-Q have been prepared in accordance with GAAP. GAAP requires the measurement of financial position and operating results in terms of historical dollars, without considering changes in the relative value of money over time due to inflation or recession.

Unlike many industrial companies, substantially all of the Company's assets and liabilities are monetary in nature. As a result, interest rates have a more significant impact on our performance than the effects of general levels of inflation. Interest rates may not necessarily move in the same direction or in the same magnitude as the prices of goods and services. However, other operating expenses do reflect general levels of inflation.

### Non-GAAP Financial Measures

The Company's accounting and reporting policies conform to GAAP and the prevailing practices in the banking industry. However, the Company also evaluates its performance based on certain additional non-GAAP financial measures. A financial measure is considered to be a non-GAAP financial measure if that financial measure excludes or includes amounts, or is subject to adjustments that have the effect of excluding or including amounts, that are not included or excluded in the most directly comparable measure calculated and presented in accordance with GAAP as in effect from time to time in the U.S. in the Company's statements of income, balance sheets or statements of cash flows. Non-GAAP financial measures do not include operating and other statistical measures or ratios or statistical measures calculated using exclusively financial measures calculated in accordance with GAAP. Non-GAAP financial measures should not be considered in isolation or as a substitute for the most directly comparable or other financial measures calculated in accordance with GAAP. Moreover, the way the Company calculates the non-GAAP financial measures may differ from that of other companies reporting measures with similar names.

The Company calculates tangible equity as total shareholders' equity, less goodwill and other intangible assets, net of accumulated amortization and tangible book value per share as tangible equity divided by shares of common stock outstanding at the end of the relevant period. The most directly comparable GAAP financial measure for tangible book value per share is book value per share. The Company calculates tangible assets as total assets less goodwill and other intangible assets, net of accumulated amortization. The most directly comparable GAAP financial measure for tangible equity to tangible assets is total shareholders' equity to total assets. The Company believes that tangible book value per share and tangible equity to tangible assets are measures that are important to many investors in the marketplace who are interested in book value per share and total shareholders' equity to total assets, exclusive of change in intangible assets.

<b>(Dollars in thousands, except per share data)</b>	<b>June 30, 2019</b>	<b>December 31, 2018</b>
<b>Tangible Equity</b>		
Total shareholders' equity	\$ 513,158	\$ 487,625
Adjustments:		
Goodwill	80,950	80,950
Other intangibles	5,318	5,775
Tangible equity	<u>\$ 426,890</u>	<u>\$ 400,900</u>
<b>Tangible Assets</b>		
Total assets	\$ 3,379,506	\$ 3,279,096
Adjustments:		
Goodwill	80,950	80,950
Other intangibles	5,318	5,775
Tangible assets	<u>\$ 3,293,238</u>	<u>\$ 3,192,371</u>
Common shares outstanding	24,923	24,907
Book value per share	\$ 20.59	\$ 19.58
Tangible book value per share	\$ 17.13	\$ 16.10
Total shareholders' equity to total assets	15.18%	14.87%
Tangible equity to tangible assets	12.96%	12.56%

**Critical Accounting Policies**

The Company's accounting policies are described in Note 1 to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2018. The Company believes that the following accounting policies involve a higher degree of judgment and complexity:

*Allowance for Loan Losses*

The allowance for loan losses represents management's estimate of probable and reasonably estimable credit losses inherent in the loan portfolio. In determining the allowance, the Company estimates losses on individual impaired loans, or groups of loans which are not impaired, where the probable loss can be identified and reasonably estimated. On a quarterly basis, the risk inherent in the loan portfolio based on qualitative and quantitative trends in the portfolio is assessed, including the internal risk classification of loans, historical loss rates, changes in the nature and volume of the loan portfolio, industry or borrower concentrations, delinquency trends, detailed reviews of significant loans with identified weaknesses and the impacts of local, regional and national economic factors on the quality of the loan portfolio.

Determining the amount of the allowance is considered a critical accounting estimate, as it requires significant judgment and the use of subjective measurements, including management's assessment of overall portfolio quality. The Company maintains the allowance at an amount it believes is sufficient to provide for estimated losses inherent in the loan portfolio at each balance sheet date. Fluctuations in the provision for loan losses may result from management's assessment of the adequacy of the allowance. Changes in these estimates and assumptions are possible and may have a material impact on the allowance, and therefore the Company's financial position, liquidity or results of operations. For a description of the factors considered in determining the allowance for loan losses see "Management's Discussion and Analysis of Financial Condition and Results of Operations—Financial Condition—Allowance for Loan Losses."

*Fair Values of Financial Instruments*

The fair values of the Company's financial instruments are based upon quoted market prices, where available. If quoted market prices are not available, fair value is estimated based upon models that primarily use observable market-based parameters as inputs. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect the estimates.

### *Goodwill and Other Intangibles*

Goodwill, which is excess purchase price over the fair value of net assets from acquisitions, is evaluated for impairment at least annually and on an interim basis if events or circumstances indicate that it is likely an impairment has occurred. Qualitative factors are assessed to determine if it is likely that the fair value of a reporting unit is less than its carrying amount. If it is determined that it is likely that the fair value of a reporting unit is less than its carrying amount, the fair value of the reporting unit is compared with the carrying amount of the reporting unit. The fair value of net assets is estimated based on an analysis of market value. Impairment exists if the fair value of the reporting unit at the date of the test is less than the goodwill recorded. If goodwill is impaired, a loss would then be recognized in the consolidated financial statements to the extent of the impairment.

Determining the fair value of goodwill is considered a critical accounting estimate because the allocation of the fair value of goodwill to assets and liabilities requires significant management judgment and the use of subjective measurements. Variability in the market and changes in assumptions or subjective measurements used to allocate fair value are reasonably possible and may have a material impact on the Company's financial position, liquidity or results of operations.

The Company's other intangible assets include core deposits, loan servicing assets and customer relationship intangibles, which can be distinguished from goodwill because of contractual or other legal rights or because the asset is capable of being sold or exchanged either on its own or in combination with a related contract, asset, or liability. Other intangible assets are tested for impairment whenever events or changes in circumstances indicate the carrying amount of the assets may not be recoverable from future undiscounted cash flows. If impaired, the assets are recorded at fair value.

### *Emerging Growth Company*

The Jump Start Our Business Start-ups, or JOBS Act permits an "emerging growth company" to take advantage of an extended transition period to comply with new or revised accounting standards applicable to public companies. The Company decided not to take advantage of this provision and is complying with new or revised accounting standards to the same extent that compliance is required for non-emerging growth companies. The decision to opt out of the extended transition period under the JOBS Act is irrevocable.

### **Recently Issued Accounting Pronouncements**

See "Note 1 – Summary of Significant Accounting Policies" to the condensed consolidated financial statements.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

The Company manages market risk, which, as a financial institution is primarily interest rate volatility, through the Asset-Liability Committee of the Bank, in accordance with policies approved by its board of directors. The Company uses an interest rate risk simulation model and shock analysis to test the interest rate sensitivity of net interest income and fair value of equity, and the impact of changes in interest rates on other financial metrics. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Interest Rate Sensitivity and Market Risk" herein for a discussion of how the Company manages market risk.

### **Item 4. Controls and Procedures**

*Evaluation of disclosure controls and procedures* — As of the end of the period covered by this Report, the Company carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management was required to apply judgment in evaluating its controls and procedures. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act) were effective as of the end of the period covered by this Report.

*Changes in internal control over financial reporting* —There were no changes in the Company’s internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended June 30, 2019, that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

## **PART II. OTHER INFORMATION**

### **Item 1. Legal Proceedings**

The Company is not currently subject to any material legal proceedings. The Company is from time to time subject to claims and litigation arising in the ordinary course of business. These claims and litigation may include, among other things, allegations of violation of banking and other applicable regulations, competition law, labor laws and consumer protection laws, as well as claims or litigation relating to intellectual property, securities, breach of contract and tort. The Company intends to defend itself vigorously against any pending or future claims and litigation.

At this time, in the opinion of management, the likelihood is remote that the impact of such proceedings, either individually or in the aggregate, would have a material adverse effect on the Company’s consolidated results of operations, financial condition or cash flows. However, one or more unfavorable outcomes in any claim or litigation against us could have a material adverse effect for the period in which they are resolved. In addition, regardless of their merits or their ultimate outcomes, such matters are costly, divert management’s attention and may materially and adversely affect the Company’s reputation, even if resolved in our favor.

### **Item 1A. Risk Factors**

None.

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

The following table provides information with respect to purchases of shares of the Company’s common stock during the three months ended June 30, 2019 that the Company made or were made on behalf of the Company or any “affiliated purchaser,” as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934.

<b>Period</b>	<b>Number of Shares Purchased<sup>(1)</sup></b>	<b>Average Price Paid per Share</b>	<b>Number of Shares Purchased as Part of Publicly Announced Plan</b>	<b>Maximum Number of Shares That May Yet be Purchased Under a Plan at the End of the Period</b>
April 1, 2019 - April 30, 2019	60	\$ 33.11	-	-
May 1, 2019 - May 31, 2019	509	\$ 28.02	-	-
June 1, 2019 - June 30, 2019	-	-	-	-

(1) Share repurchases result from vesting of restricted stock awards. None of these purchases were part of a publicly announced program to purchase common stock of the Company.

### **Item 3. Defaults Upon Senior Securities**

None.

### **Item 4. Mine Safety Disclosures**

Not Applicable.

**Item 5. Other Information**

None.

**Item 6. Exhibits**

## CERTIFICATION

I, Robert R. Franklin, Jr., certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of CBTX, Inc. for the quarter ended June 30, 2019;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
