SAFE HARBOR STATEMENT AND NON-GAAP FINANCIAL MEASURES

NON-GAAP FINANCIAL MEASURES

This presentation contains certain non-GAAP (generally accepted accounting principles) financial measures, including tangible equity, tangible assets, tangible book value per share, tangible equity to tangible assets, return on tangible shareholders' equity, return on average tangible equity, and pre-provision net revenue. The non-GAAP financial measures that CBTX, Inc. (the "Company") discusses in this presentation should not be considered in isolation or as a substitute for the most directly comparable or other financial measures calculated in accordance with GAAP. A reconciliation of the non-GAAP financial measures used in this presentation to the most directly comparable GAAP measures is provided at the end of this presentation.

FORWARD-LOOKING STATEMENTS

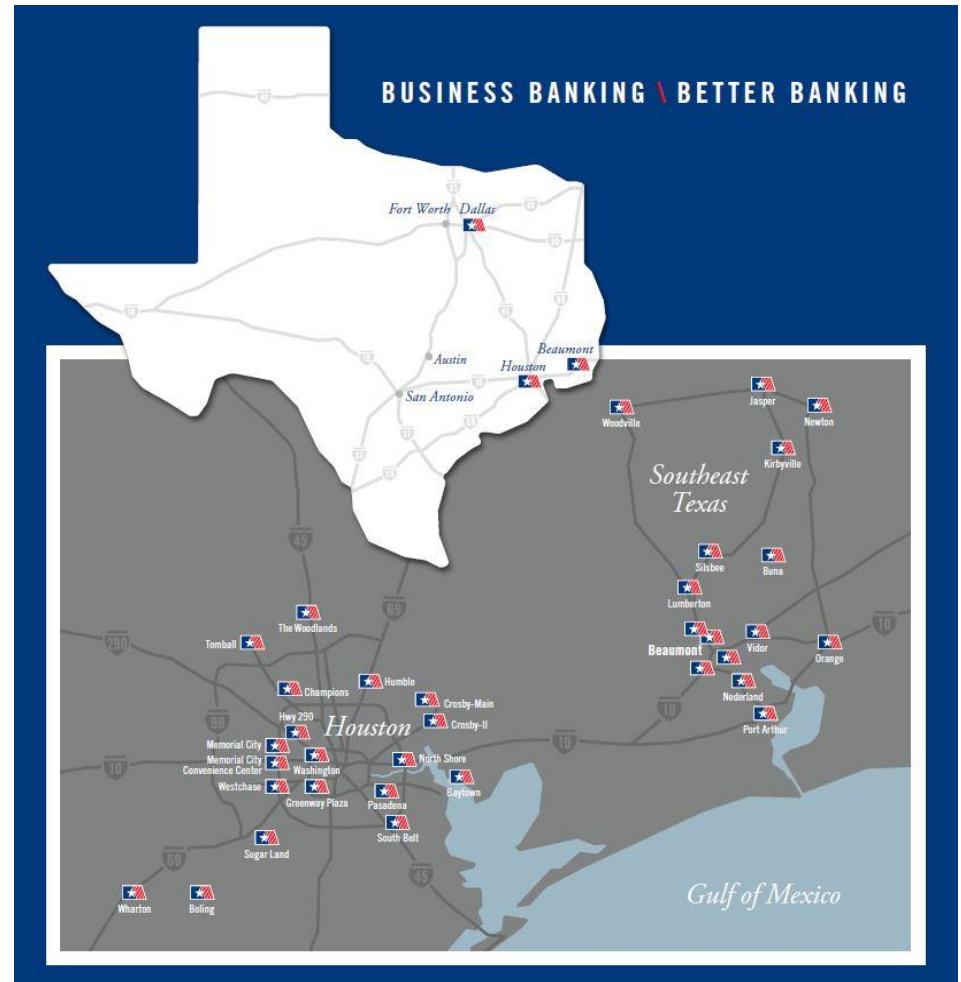

This presentation may contain certain forward-looking statements within the meaning of the securities laws that are based on various facts and derived utilizing important assumptions, current expectations, estimates and projections about the Company and its subsidiary. Forward-looking statements include information regarding the Company's future financial performance, business and growth strategy, projected plans and objectives, as well as projections of macroeconomic and industry trends, which are inherently unreliable due to the multiple factors that impact economic trends, and any such variations may be material. Statements preceded by, followed by or that otherwise include the words "believes," "expects," "anticipates," "intends," "projects," "estimates," "plans" and similar expressions or future or conditional verbs such as "will," "should," "would," "may" and "could" are generally forward-looking in nature and not historical facts, although not all forward-looking statements include the foregoing. Further, certain factors that could affect our future results and cause actual results to differ materially from those expressed in the forward-looking statements include, but are not limited to: whether the Company can manage the economic risks related to the impact of COVID-19 and the sustained instability in the oil and gas industry (including risks related to its customers' credit quality, deferrals and modifications to loans, the Company's ability to borrow, and the impact of a resultant recession generally), and other hazards such as natural disasters and adverse weather, acts of war or terrorism, other pandemics, an outbreak of hostilities or other international or domestic calamities and the governmental or military response thereto, and other matters beyond the Company's control; the geographic concentration of our markets in Beaumont and Houston, Texas; whether the Company can manage changes and the continued health or availability of management personnel; the amount of nonperforming and classified assets that the Company holds and the efforts to resolve the nonperforming assets; deterioration of its asset quality; interest rate risks associated with the Company's business; business and economic conditions generally and in the financial services industry, nationally and within the Company's primary markets; volatility and direction of oil prices, including risks related to the recent collapse in oil prices, and the strength of the energy industry, generally and within Texas; the composition of the Company's loan portfolio, including the identity of its borrowers and the concentration of loans in specialized industries, especially the creditworthiness of energy company borrowers; changes in the value of collateral securing the loans; the Company's ability to maintain important deposit customer relationships and the Company's reputation; the Company's ability to maintain effective internal control over financial reporting; the Company's ability to pursue available remedies in the event of a loan default for loans under the Paycheck Protection Program, or PPP, and the risk of holding the PPP loans at unfavorable interest rates as compared to the loans to customers that we would have otherwise lent to; the volatility and direction of market interest rates; liquidity risks associated with the Company's business; systems failures, interruptions or breaches involving the Company's information technology and telecommunications systems or third-party servicers; the failure of certain third party vendors to perform; the institution and outcome of litigation and other legal proceedings against the Company or to which it may become subject; operational risks associated with the Company's business; the costs, effects and results of regulatory examinations, investigations, including the ongoing investigation by the Financial Crimes Enforcement Network, or FinCEN, of the U.S. Department of Treasury, or reviews or the ability to obtain the required regulatory approvals; the Company's ability to meet the requirements of its Formal Agreement with the Office of the Comptroller of the Currency, and the risk that such Formal Agreement may have a negative impact on the Company's financial performance and results of operations; changes in the laws, rules, regulations, interpretations or policies relating to financial institution, accounting, tax, trade, monetary and fiscal matters; governmental or regulatory responses to the COVID-19 pandemic and newly enacted fiscal stimulus that impact the Company's loan portfolio and forbearance practice; and other governmental interventions in the U.S. financial system that may impact how the Company achieves its performance goals. Additionally, many of these risks and uncertainties are currently elevated by and may or will continue to be elevated by the COVID-19 pandemic.

The foregoing factors should not be construed as exhaustive and should be read together with the other cautionary statements included in the Company's Annual Report on Form 10-K, filed with the Securities and Exchange Commission, or SEC, and other reports and statements that the Company has filed with the SEC. If one or more events related to these or other risks or uncertainties materialize, or if the Company's underlying assumptions prove to be incorrect, actual results may differ materially from what it anticipates. Accordingly, you should not place undue reliance on any such forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made, and the Company does not undertake any obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise. New factors emerge from time to time, and it is not possible for the Company to predict which will arise. In addition, the Company cannot assess the impact of each factor on its business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Copies of the SEC filings for the Company are available for download free of charge from www.communitybankoftx.com under the Investor Relations tab.

All forward-looking statements, expressed or implied, included in this communication are expressly qualified in their entirety by this cautionary statement. This cautionary statement should also be considered in connection with any subsequent written or oral forward-looking statements that the Company or persons acting on the Company's behalf may issue. Annualized, pro forma, projected and estimated numbers are used for illustrative purpose only, are not forecasts and may not reflect actual results.

LOAN DEFERRALS

- Leveraged our experience from past hurricanes to develop our program for working with our customers through the impact of the pandemic
- Helping to help customers maintain financial strength through the pandemic as much as possible and in line with regulatory guidance
- Generally approving deferrals if customer is profitable and deferral only to provide time and payment relief
- Following the end of the deferral period, we expect our customer to fall into one of three categories: (1) business is back to usual or close and no further aid necessary, (2) business reopened but more time is necessary and may need an interest-only period or another short-term deferral, or (3) business permanently impaired and moves to a workout and possibly classified credit
- At 8/31/2020, there were five loans totaling \$9.0 million that were previously deferred that were 30 days or more past due

ALLOWANCE FOR CREDIT LOSSES

- CECL adoption effective 1/1/2020 resulted in an \$874,000 increase in allowance for credit losses, or ACL, for loans and an increase of \$2.9 million in the ACL for commitments
- Q2 2020 increase of \$8.5 million in ACL for loans driven by the impact of COVID-19 and the sustained instability of the oil and gas industry which impacted local and national economic factors
- Utilized final Moody's baseline scenario forecast model for the last month of each quarter which considers both COVID-19 and economic stimulus
- The Company's unfunded commitments are letters of credit and commitments to extend credit which have similar risk characteristics as funded loans of the same type

NPA AND NET CHARGE-OFFS

Nonperforming Assets

- Disciplined credit risk management
- Nonperforming assets, or NPA, remained low relative to total assets and compared to SNL financial aggregates
- The increase in NPA during 2020 primarily relates to loan deferrals

Net Charge-Offs

- Net charge-offs remained low relative to total loans and compared to SNL financial aggregates

Nonperforming Assets / Total Assets⁽¹⁾

Net Charge-Offs / Average Loans⁽¹⁾

(1) 2020 figures are as of June 30, 2020 for NPA and the quarter ended June 30, 2020 on an annualized basis for net charge-offs.

(2) USA and Texas figures are from SNL Financial aggregates.

REVENUE AND EFFICIENCY

Revenue

- Net interest margin (NIM) remained strong, impacted by lower interest rates and lower yielding PPP loans
- Average loan yield (excluding PPP loans) of 4.75% for Q2 2020
- Average loan yield on PPP loans of 2.28%
- Cost of interest-bearing liabilities of 0.52%
- Asset sensitive, with 49.5% variable rate loans as of June 30, 2020
- Approximately 77% of variable rate loan portfolio had floors

Efficiency

- Investments in people, technology and systems
- Infrastructure capable of supporting a much larger bank
- Resulting scalability should allow for growth without significant expenses

(1) Figures as of year-end 12/31/2020. Q2 as of 6/30/2020.

(2) Efficiency ratio is calculated by dividing noninterest expense by the sum of net interest income and noninterest income.

At CommunityBank of Texas, we're committed to building strong honest relationships. We strive to keep our clients' and partners' needs at the forefront of everything we do. And we measure our success by the success we help create for them.

OUR VISION

Here to Serve.

OUR POSITIONING

To experienced business owners, CommunityBank of Texas is the financial partner that delivers a better banking experience.

OUR PERSONALITY

Resourceful, Trustworthy, Friendly,
Responsive, Strong

BUSINESS BANKING \ BETTER BANKING

At CommunityBank of Texas, we believe in a powerful and multi-faceted statement, one that drills straight to the heart of our reason for being, while clearly illuminating the mission that our many employees pursue each day:

Here to serve.

Here to serve is a commitment to building strong and honest relationships, a clarion call to remember that in everything we do, our highest purpose is to transform our extensive financial expertise into success for our clients.

Relationships are the bedrock of our business – both internally and externally – and there is a stewardship in the word **serve** that promises that, in these relationships, we will be caring, humble and precise. That we will keep the needs of our clients at the forefront of our minds at all times and measure our performance by the success we create for each other.

The other critical component of our brand vision is the word **here**, which serves several important roles.

Here is a promise that we will be there for our clients and answer the call when they need us the most. We will be Dependable. Honest. Trustworthy. And we will remember that every time is the right time to put our clients' needs first.

Here is also a pledge to be visible and present in the communities we serve. It adds weight to the first and most key component of our name: Community.

We are not some faceless financial institution located high above the rank and file, safely sheltered in an ivory tower. We are right **here**, serving the cities and communities in which we live. Day-in and day-out. We sponsor civic events, donate back to our neighbors in need, and spend the time to really get to know our clients on a personal level.

In the face of an increasingly digital and impersonal world, we are proudly present in the lives of our clients and our communities.

APPENDIX

NON-GAAP RECONCILIATIONS

Our management uses certain non-GAAP financial measures to evaluate performance. We have included in this presentation information related to these non-GAAP financial measures for the applicable periods presented. The following tables reconcile, as of the dates set forth below (1) book value per share to tangible book value per share; (2) total shareholders' equity to total assets to tangible equity to tangible assets; (3) return on average shareholders' equity to return on average tangible equity; and (4) net income to pre-provision net revenue.

The most directly comparable GAAP financial measure for tangible book value per share is book value per share and the most directly comparable GAAP financial measure for tangible equity to tangible assets is total shareholders' equity to total assets. The most directly comparable GAAP financial measure for return on average tangible equity is return on average shareholders' equity. The most directly comparable GAAP financial measure for pre-provision net revenue is net income.
